#### WEEKLY SUMMARY

#### FOR WEEK ENDED JANUARY 4, 1979

#### WHEAT AND SOYBEANS WEAKER

HIGHLIGHTS:

Wheat and soybean markets weakened

across the Nation during the week ended January 4. Snow cover over most of the winter wheat belt provided needed moisture and protection from the extremely cold temperature reported over the northern half of the Nation. Exporters turned sellers as forward position prices provide no carrying charge. High cost interest rates limited flour mill buying to grind replacement only. Snow, ice and low temperatures hampered grain movement and cut into grain processor run time.

WHEAT:

Slowed export inspection figures

reduced export buying as U.S. dollar strength caused increased net cost of U.S. grains in foreign countries and snow cover over much of the winter wheat areas combined to weaken wheat markets. Kansas City hard red winter wheat moved 8 to 11 cents lower. Chicago soft red winter fell 13 cents.

Portland soft white wheat dropped 6 cents as absence of new sales and uncertainty regarding Iranian purchases continues to overhang the market. Lack of much producer selling checked declines.

Minneapolis dark northern spring wheat decline was limited by fair west coast export buying interest. Ordinary protein fell 9 cents and 14 percent protein declined 6 cents per bushel. Medium milling quality hard amber durum traded unchanged to up 7 cents as light receipts moved quickly to mills.

CORN:

Yellow corn markets held surprisingly

firm in view of the large stocks. Extremely cold temeperatures and reduced pastures increased animal feed requirements. Processor demand turned heavier but snow, ice and cold temperatures limited inspection and movement. Chicago No. 2 yellow corn moved 2 to 4 cents lower. Kansas City white corn held unchanged with increased farmer offing meeting a steady mill demand.

OATS AND BARLEY:

Fair buying interest and lack of heavy

offerings kept oats and barley markets in a narrowly mixed price pattern. Chicago heavy oats held steady, Minneapolis best malting barley unchanged. Portland barley up 1 to 3 cents per bushel.

SORGHUM:

Increased sorghum offerings met

only light export and feeder demand as current preference favored corn over sorghum. Kansas City sorghum traded 7 cents lower while the Texas High Plains market held unchanged.

OILSEEDS:

Soybean markets trended lower as

Brazil reported improved crop outlook and offered new crop soybean meal for sale. Export inspection figures dropped sharply. Chicago No. 1 yellow soybeans fell 6 cents per bushel. Minneapolis flaxseed advanced 15 cents per bushel as crushing plants switched back to flax. Minneapolis oil type sunflower seed held steady but the Duluth market declined 5 cents per hundred pounds.

GRAINS: Closing prices, basic contracts No. 2 for future delivery

#### WEEKLY SUMMARY

#### FOR WEEK ENDED JANUARY 11

## WHEAT AND MOST FEED GRAINS TURN STRONGER

#### HIGHLIGHTS:

Wheat and most feed grains traded stronger during the

week ended January 11. Ice, snow and subfreezing temperatures halted transportation on northern rivers, delayed movement on the lower rivers, caused delays in rail and truck transporation and increased breakdown of equipment. Stronger export demand at the close came as the barge strike at Rotterdam was settled and large sales of grain to China and Russia were made. Light country selling contributed strength at most points.

WHEAT:

Renewed export buying interest coupled with increased

flour mill grind and light country selling moved most wheat markets sharply higher. Kansas City hard red winter ordinary protein traded 14 cents higher. Chicago soft red winter wheat advanced 23 cents per bushel.

Minneapolis dark northern spring wheat rose up 9 cents. Medium milling quality hard amber durum wheat moved up 5 to 13 cents at \$3.65 per bushel. Portland soft white wheat traded 7 cents higher with most buying interest in forward position at preminums over the nearby quotation.

CORN:

Yellow corn moved higher as moderate country selling

failed to cover combined needs of the feed industry, processing plants and exporters. Chicago No. 2 yellow corn went up 2 to 5 cents. The Memphis market rose 9 to 10 cents due to expanded export demand and frozen northern rivers delaying barge movement.

OATS AND BARLEY:

Light offerings added strength to oats markets

with Chicago up 3 cents and the Minneapolis market ranged 7 to 8 cents higher. Barley markets mixed with the Minneapolis market unchanged for malting and feed grades. Pacific feeding area barley prices moved mostly 2 to 3 cents higher.

SORGHUM:

Sorghum eased lower at Texas High Plains feeding

area but increased export buying interest raised Kansas City market 6 cents and the Los Angeles market rose 8 to 9 cents per hundred pounds.

OILSEEDS:

Exporters need soybeans to load ships in ports and

hade to compete with processors for light offerings. Chicago No. 1 yellow soybeans went up 11 cents. The Memphis market advanced 20 to 23 cents per bushel. Minneapolis flaxseed moved up 25 cents per bushel under heavy crusher demand. Oil type sunflower seed held steady at Duluth but up 20 cents per hundred pounds at Minneapolis.

GRAINS: Closing prices, basic contracts No. 2 for future delivery

<sup>1/</sup> The quantity of grains inspected at U.S. Ports for shipment to Canada is reduced by the amount of U.S. grains exported from Canadian Ports as reported by the Canadian Grain Commission. It is assumed this residual amount of grains is held in Canada for later export or consumption.

SOURCE: Canada-Canadian Grain Commission: U.S. Coastal areas - Inspections for Export under the U Grain Standards Act.

### WEEKLY SUMMARY

### FOR WEEK ENDED JANUARY 18, 1979

### MARKETS MOSTLY HIGHER

### HIGHLIGHTS:

soybean production areas.

Wheat and feed grain markets moved mostly higher across the Nations during the week ended January 18. Market strength originated in tightness of supply as winter storms limited rail and truck grain movement and ice clogged northern rivers prevented barge movement in the upper midwest. Market depressing factors at mid week were: record corn and soybean production reported in the U.S., moisture received over much of the dry winter wheat area, and competition in world wheat markets from Australia and Argentina. Contributing strength to oilseed markets came from drought reports in Brazils' main

Wheat markets moved mixed with hard red

### WHEAT:

winter wheat moving generally higher as flour mills competed with exporters for wheat in position to be moved. Kansas City hard red winter wheat traded up 3 cents on ordinary protein and up 7 cents for 13 percent protein. Soft red winter wheat declined 3 cents at Chicago as embargoed rail and frozen rivers prevented nearly all grain movement. Strong mill demand for higher protein wheat moved the Minneapolis market higher on all but ordinary to 13 percent protein samples. The 14 pecent and higher protein samples advanced 4 to 8 cents per bushel. Portland soft white wheat went up 2 cents as ships in port awaited loading.

### CORN:

Corn markets moved mixed as the mid period crop report depressed buyers ideas but transportation problems resulting from winter storms and frozen rivers kept users competing for offerings which could move immediately. Chicago yellow corn finished up 1 to 3 cents and the St. Louis market closed 3 cents lower to 3 cents higher. Slow white corn demand moved the market 5 cents lower at Kansas City.

### OATS AND BARLEY:

Oats traded mixed with the Chicago market 1 cent lower in slow demand situation and the Minneapolis market up 4 to 6 cents due to good mill buying interest. Barley 4 to 6 cents due to good mill buying interest. Barley markets showed little price movment in all markets except Los Angeles. Minneapolis best malting barley and feed grade unchanged. Los Angeles feed barley ranged 2 to 3 cents higher per bushel.

### SORGHUM:

Sorghum markets tended to follow yellow corn markets except in the Texas High Plains area where trading moved mixed, down 5 cents to up 2 cents per hundred pounds. Kansas City sorghum finished 6 cents higher.

### **OILSEEDS:**

Oilseed markets found support in reports of increasing drought damage to Brazils' spring soybean crop. Chicago No. 1 yellow soybeans moved up 8 cents. Minneapolis flaxseed traded 5 cents higher under good crusher demand. Minneapolis oil type sunflower seed advanced 15 cents per hundred pounds as country elevators held stocks.

GRAINS: Closing prices, basic contracts No. 2 for future delivery

### WEEKLY SUMMARY

### FOR WEEK ENDED JANUARY 25, 1979

### PRICES MOVE IN MIXED TREND

HIGHLIGHTS:

Wheat and feed grain markets moved in a mixed price trend across the nation during the week ended January 25. Heavy feed grain stocks report had little effect on the market as farmers marketed grains in an orderly fashion. Transportation problems continue the main deterrent to trade. New storms arrived, dumping heavy rain and snow over most of the nation. Soybean markets moved erratically as Brazil drought reports were followed by rains. Traders assessed the rainfall as coming too late to prevent damage to Brazil's soybean crop. In spite of large processor soybean meal stocks, processing plants continued to bid against exporters for moderate country offerings.

Wheat markets moved mixed as good mill and export demand was offset by reports of Australia's 3-year, 7.5 million ton wheat agreements with China and aggressive competition from Argentina for world wheat markets. Kansas City mill and exporter competition for light offerings forced basis up for the lower proteins which closed as much as 3 cents per bushel above week ago prices. Futures market declines caused a drop in the higher protein price as basis gains only partially offset the drop in the March futures price. Chicago soft red winter wheat traded 1 cent lower per bushel.

Minneapolis dark northern spring wheat moved mostly higher with good demand from mills and order buyers. Dark northern spring ordinary protein wheat finished steady but 14 pct protein ranged 2 cents higher. Portland soft white wheat fell 4 cents.

Yellow corn markets found support in spite of large stocks as export activity picked up. Domestic feed business continued at a record pace and farmers marketed corn in an orderly manner. Chicago No. 2 yellow corn traded 3 cents higher. Kansas City white corn fell 5 cents per bushel as light offerings met little buying interest.

OATS AND BARLEY:

Oats markets moved mostly higher with best buying interest from mills at Minneapolis where the market advanced 5 cents per bushel. Dull interest at Chicago held the gain to one cent. Barley markets were dull. Lack of export interest dropped the Minneapolis and Portland feed barley markets 4 to 5 cents per bushel. Minneapolis best malting barley held unchanged.

SORGHUM:

Light farm offerings and increased feeder and export buying interest shoved sorghum markets higher. Kansas City market rose 13 cents and the Texas High Plains market ranged 3 to 5 cents higher per hundred pounds.

OILSEEDS:

Oilseed markets received strength from continued good processor buying interest and reports of drought damage to Brazil's spring soybean crop. Chicago No. 1 yellow soybeans moved 10 cents higher per bushel. Minneapolis flaxseed traded 15 cents higher as crushing plants needed supplies to fill outstanding oil orders. Oil type sunflower seed traded 5 cents higher at Minneapolis and Duluth.

### WEEKLY SUMMARY

### FOR WEEK ENDED FEBRUARY 1, 1979

### WHEAT AND FEED GRAIN MARKETS MIXED

Wheat and feed grain markets moved in a mixed price trend across the Nation during the week ended February 1. Grain trading volume was reduced by lack of adequate rail car availability, snow covered roads and ice clogged river system. Contributing to the market slowdown was the various world crop reports indicating larger supplies of wheat and feed grains, stronger U.S. currency and active competition for world grain markets by Australia, Argentina and Canada. Conflicting reports of drought damage and rainfall in Brazil's soybean production area caused considerable confusion among traders and restricted soybean sales activity.

Wheat markets felt the impact of several crop and stocks reports indicating larger than expected production and stocks of wheat and feed grains. Stronger U.S. currency market and lack of readily available transportation facilities further limited trade. Kansas City hard red winter wheat dropped 3 cents per bushel. Chicago soft red winter wheat closed 1 cent higher with mill buying interest supporting the market.

Minneapolis dark northern spring wheat moved 1 to 4 cents lower with the greatest weakness for lower protein samples. Ordinary protein fell 4 cents while 14 pct protein went down 2 cents per bushel. Portland soft white wheat declined 8 cents per bushel.

Corn trade was severely curtailed by lack of adequate transportation facilities. Ships waiting in ports could not be loaded as ice clogged rivers delayed barge movement, snow covered roads limited country movement and rail car shortage curtailed processing and milling operations. Chicago No. 2 yellow corn finished unchanged with movement resumed at the close as roads were reopened. Kansas City white corn held unchanged in lackluster trade.

OATS AND BARLEY:
Oats and barley trade very quiet due to lack of transportation. Demand for oats mainly from mill interest at Minneapolis. Chicago heavy oats 1 cent higher. Minneapolis best malting barley unchanged in light trade as unusually cold temperatures delayed brewery seasonal expansion. Feed barley markets moved in a mixed price trend with trade limited by lack of transportation availability.

Sorghum trade turned dull as available transportation was used to move other grains and most trade interest centered around corn to load waiting ships and to supply wet and dry corn processing plants. Kansas City sorghum fell 10 cents per hundred pounds.

Oilseed activity was limited by trade confusion as to the real outlook for Brazil's spring harvested soybean crop and the lack of active country selling. Chicago No. 1 yellow soybeans closed unchanged. Illinois processing plant price moved 2 to 6 cents higher as soybean oil export interest expanded at the close. Minneapolis flaxseed moved up 5 cents per bushel as farm selling fell off. Oil type sunflower seed trade slowed due to lack of storage space and at the close, no bids were offered at Minneapolis. The Duluth market declined 5 cents per hundred pounds.

#### WEEKLY ROUNDUP OF WORLD PRODUCTION AND TRADE

The U.S. Department of Agriculture announced January 26, the following report of recent developments in world agriculture and trade.

#### GRAIN AND FEED:

In the annual U.S.S.R. plan fulfillment report, the Soviets have placed their 1978 wheat output at 120.8 million tons, rye at 13.6 million tons, corn at 9 million tons and rice at 2.1 million tons. The total 1978 grain crop was 235 million tons. No further breakdown was provided on the other individual grains.

The 120.8 million ton wheat crop is nearly 3 million tons higher than the last U.S.D.A. estimate of 118 million tons. The estimate on total coarse grains is decreased from 105 to 102 million tons.

The estimate of total U.S.S.R. grain imports remains unchanged for 1978/79 (July-June) at 5 million tons of wheat and 9 million tons of coarse grains.

Purchases from all origins for July-June shipment now total about 4 million tons of wheat and 5.5 million tons of coarse grains.

The Australian Wheat Board has reported a new sale of 2.5 million tons of wheat to China for delivery during Australia's current December-November marketing year. Assuming this quantity moves in roughly equal amounts over the February-November period, this new sale puts China's total wheat purchases from all origins for 1978/79 (July-June) delivery at about 9 million tons, compared with 8.6 million tons in 1977/78. For calendar 1979, purchases from all origins now total about 7 million tons. China's corn purchases for both 1978/79 (July-June) and calendar 1979 thus far total about 3.2 million tons.

In the third forecast of the 1978/79 crops, the Brazilian Production Finance Commission (CFP), an agency of the Brazilian Ministry of Agriculture, indicated that domestic wheat production will be between 2.66 million tons and 2.72 million tons. Corn production is forecast between 18.95 million tons and 19.40 million tons.

In 1977/78 Brazilian wheat and corn production of 2.7 and 14 million tons, respectively, was severely lower as a result of the prolonged drought. The latest corn estimate is in the result of excellent growing weather to date, especially in the Parana Region.

Based upon harvest progress and farmer deliveries thur far, it now appears that the Australian wheat crop will be approximately 16.5 million tons, significantly higher than the preharvest projection of 14.5 million tons. This crop surpassed the 14.8 million ton 1978 harvest and is clearly the highest yielding wheat crop in a country subject to wide weather induced variations in yield. The Australian Wheat Board has already received 14.6 million tons and final deliveries likely will total around 15.6 million tons, or slightly higher. Farmers are expected to retain nearly 900,000 tons for on farm and other local needs.

Exceptionally favorable weather conditions during spring and early summer have contributed to the record yields of more than 100 bushels per acre in some areas. The record harvest is creating serious storage problems in many areas, particularly in New South Wales and Queensland. Substantial quantities are being held on farms, either in open piles or in temporary storage.

#### OILSEEDS AND PRODUCTS

The 1978 Soviet sunflower harvest, according to a January 19 news report, amounted to only 5.31 million tons, 10 percent below the 1977 harvest and 11 percent below the previous estimate.

The reduced harvest would imply potential oil and meal production in 1978/79 as follows, with 1977/78 comparisons in 1,000 tons:

|      | <u>1977/78</u> | <u>1978/79</u> | CHANGE |
|------|----------------|----------------|--------|
| Oil  | 2,273          | 2,044          | -229   |
| Meal | 1,963          | 1,766          | -197   |

Recent indications of Soviet vegetable oil purchases could be well founded in view of the 1978 sunflower seed crop shortfall, as well as the 149,000 ton shortfall reported in actual production of vegetable oils during June 1- November 30, 1978.

#### WEFKLY SUMMARY

#### FOR WEEK ENDED FEBRUARY 8, 1979

#### WHEAT AND OILSEED MARKETS STRONG

#### HIGHLIGHTS:

Wheat and oilseed markets moved strongly upward across

the Nation during the week ended February 8. Contributing strength was trade reports of fairly heavy drought damage to Brazil's soybean crop, good export inspections reports and stronger precious metals markets. Taking the edge off markets at the close was expanded rail delivery of grain and precious metal markets losing part of recent advances.

#### WHEAT:

Heavy export inspections reports contributed strength

to wheat markets. Kansas City hard red winter wheat moved up 9 cents for ordinary protein and rose 10 cents for 13 pct protein. Chicago soft red winter wheat went up 10 cents per bushel.

Minneapolis dark northern spring wheat moved higher with light receipts and good buying interest. Ordinary protein wheat advnaced 3 cents and 14 pct protein gained 4 cents. Medium milling quality hard amber durum finished unchanged to up 5 cents as light offerings failed to satisfy buying interest. Portland soft white wheat moved up 4 cents with new export sales furnishing the strength.

#### <u>CORN</u>:

Yellow corn markets moved generally higher as large

export potential absorbed expanded country sales. Chicago No. 2 yellow corn ranged 2 to 4 cents higher. The exception to the higher trend was multi-car corn at Kansas City which fell 9 cents due to heavy offerings.

#### OATS AND BARLEY:

Oats markets moved mostly higher in very light trade.

Chicago heavy oats closed up 2 cents while the Minneapolis market finished mixed down 5 cents to up 1 cent per bushel. Minneapolis best malting barley held unchanged at \$2.15 to \$2.50 with good interest for the light offerings. Feed barley markets turned mostly easier with the Los Angeles market 3 to 4 cents lower.

#### SORGHUM:

Sorghum traded mixed as larger offerings at Kansas

City were hard to move but expanded feeding in Calîfornia raised the Los Angeles market 9 to 11 cents per hundred pounds. The Kansas City market slipped 2 cents lower.

#### OILSEEDS:

Oilseed markets responded to several trade reports

indicating drought damage to Brazil's spring soybean crop. Chicago No. 1 yellow soybeans moved 18 cents higher per bushel. Minneapolis flaxseed advanced 10 cents per bushel on good crusher demand and light farm sales. Duluth sunflower seed rose 55 cents per hundred pounds.

- 1/ The quantity of grain inspected at U.S. Ports for shipment to Canada is reduced by the amount of U.S. grain exported from Canadian Ports as reported by the Canadian Grain Commission. It is assumed this residual amount of grain is held in Canada for later export or consumption.
- 2/ Includes 191,000 bushels of white corn.
- 3/ Includes 507,000 bushels of white corn.
- 4/ Includes 428,000 bushels of white corn.
- 5/ Includes 1,001,000 bushels of white corn.
- 6/ Includes 551,000 bushels of white corn.
- 1/ Includes 2,678,000 bushels of white corn.

The quantity of grain inspected at U.S. Ports for shipment to Canada is reduced by the amount of U.S. Grain exported from Canadian Ports as reported by the Canadian Grain Commission. It is assumed this residual amount of grain is held in Canada for later export or consumption. Includes 151,000 bushels of white corn. Includes 507,000 bushels of white corn. Includes 428,000 bushels of white corn. Includes 1,001,000 bushels of white corn. Includes 551,000 bushels of white corn. Includes 2,678,000 bushels of white corn. Includes 2,678,000 bushels of white corn.

### WORLD AGRICULTURE AND TRADE (WEEK ENDED JANUARY 31, 1979)

#### OILSEEDS AND PRODUCTS:

Light showers occurred throughout Rio Grande Do Sul during the 4th week of January. Totals were light however--mostly in the range of 5-10 MM but perhaps a fifth of the soybean area received 20-25 MM. More rain will be needed if losses are to be minimized.

In Parana, rain totals of 25-70 MM during the fourth week were reported, most falling at the weekend. Conditions in Parana are believed to be better than in Rio Grande Do Sul since the crop was planted earlier in Parana and is reported to be further along. A few beans have already been harvested in Parana.

In summary, it is likely that some reduction in yields, as a result of dry weather has already occurred, primarily in Rio Grande Do Sul. The current assessment is that through January 25, losses were minor, in the range of 5 to 7 percent for all of Brazil. The average yield in Brazil for the 1973-77 soybean crops was 1,650 kilograms per hectare (24.5 bu. per acre). Yields for the 1979 crop were estimated preliminarily at 1,725 kilograms per hectare (25.6 bu. per acre) as a result of excellent growing conditions through most of December. A loss in the range of 5 to 7 percent would reduce yields to around 1,620 kilograms per hectare (24.1 bu. per acre) assuming area planted is in the range of 8 to 8.4 million hecatres, this would indicate a crop in the range of 13 to 13.6 million tons.

However, U.S.D.A. continues to maintain its current estimate of 13 to 14 million tons for the following reasons: (1) the crop has been subject to stress by lack of rain, but it is unlikely that substantial damage has occurred because of the generally excellent growing conditions prior to the first of January. (2) Some rain has fallen in recent days in the main production areas. While precipitation apparently has been inadequate to restore soil moisture supplies, in Rio Grande Do Sul, it may be sufficient for the near term.

Current and long-range foreign market opportunities for U.S. sunflowerseed will be surveyed this spring by a team of industry and government representatives. The rapid expansion of U.S. sunflowerseed production in recent years has prompted representatives of the industry to request assistance from U.S.D.A. in developing markets for the expanded production.

Team members scheduled to visit Czechoslovakia and several other countries in March are: Alfred Persi, Marketing Specialist, Foreign Agricultural Service, USDA; Larry Kleingartner, Marketing Director, North Dakota Sunflower Council; Paul Haroldson, Farmer and Chairman, North Dakota Sunflower Seed Council and Judi Adams, Nutritionist, North Dakota Sunflower Council.

According to the U.S. Agricultural Attache in Tokyo, Japanese imports of soybeans rose to 4,260,000 tons in Calendar 1978--18 percent above the 1977 volume of 3,602,000 tons--and 17 percent above the previous record of 3,602,000 tons in Calendar 1973. U.S. soybeans account for about 98 percent of Japanese import requirements. The 1978 Japanese import volume was above expectations, reflecting record large movements of 525,000 tons in December, which exceeded the previous monthly record of 490,000 tons in December 1977.

Palm oil production in West Malaysia in October reached 183,500 tons, 29 percent above the 142,300 tons produced in October 1977. Increased production during July-October overcame the drought--reduced output in early months of 1978. Production during January-October rose to 1.3 million tons--up 2.3 percent from the 1.27 million in the same months a year earlier.

East Malaysia produced 119,300 tons of palm oil during the first ten months of 1978, compared with 102,000 tons in January-October 1977. This brought total Malaysian output to 1.42 million tons from 1.38 million in the same months of 1977.

Exports of crude palm oil from East and West Malaysia totaled 484,300 tons, 11 percent below the 542,400 tons of January-October 1977. However, refined palm oil exports, entirely from West Malaysia, rose to 754,500 tons from 587,200 tons during the same months. This brought total Malaysian exports of crude and refined palm oil to 1.24 million tons, an increase of 109,200 tons from the ten month 1977 total of 1.13 million tons.

Palm oil exports in January-October, to principal destinations, with 1977 comparisons, are as follows in 1,000 tons:

#### WEEKLY SUMMARY

#### FOR WEEK ENDED FEBRUARY 15, 1979

#### SOYBEAN MARKETS STRONG - WHEAT AND FEED GRAINS MIXED

#### HIGHLIGHTS:

Markets moved unevenly across the Nation during the week ended February 15.

Inspections for export totals fell below trade expectations but when prices fell, country selling of soybeans, wheat and feed grains dropped sharply. Wheat markets felt the impact of aggressive selling by Argentina, Australia and France. World monetary markets had some influence on trade with sharp movements in precious metals affecting trades in grain. Drought in part of Brazil's soybean production area was partially relieved by rain. This weakening influence was countered by news that Russia might buy substantial amounts of soybean oil. Transportation continued snarled by ice clogged northern rivers, snow and cold temperatures over northern states and shortage of rail cars. Trucks reported country roads almost impassable in areas of thawing temperatures.

#### WHEAT:

Wheat markets turned mostly lower under pressure of delayed export flour contracts kets for nearby wheat business. Kansas City

and aggressive competition in world markets for nearby wheat business. Kansas City No. 1 hard red winter wheat dropped 8 cents for ordinary protein and 6 cents lower for 13 pct protein samples. Tight supply of soft red winter wheat caused competition for offerings and Chicago soft red moved 1 cent higher.

Minneapolis dark northern spring wheat moved 1 cent lower for all but 15 pct and higher protein wheat which moved up 4 cents. Medium milling quality hard amber durum advanced 10 cents as mills competed for scarce offerings.

#### CORN:

Yellow corn traded mostly higher following strength in soybean markets. Demand was ling kept users hidding for stocks. Chicago

not strong but well regulated farm selling kept users bidding for stocks. Chicago No. 2 yellow corn moved up 1 cent per bushel. Kansas City white corn held unchanged all week in dull trade.

#### OATS AND BARLEY:

Oats markets moved mixed, up 2 cents at Chicago where offerings fell short of the

demand and down 1 to 3 cents at Minneapolis when mill demand was satisfied. Minneapolis best malting barley closed steady to up 5 cents as malster demand expanded. Feed grade barley moved mostly lower under pressure of little buying interest. Stockton feed barley fell 2 to 3 cents per bushel.

#### SORGHUM:

Rail sorghum markets moved mostly lower as warmer temperatures reduced nearby

feed requirements in southwestern states. Kansas City yellow sorghum eased 1 cent lower per hundred pounds. The Los Angeles market fell 5 to 6 cents.

#### OILSEEDS:

Oilseed markets moved higher in spite of lower soybean inspections for export and

reports of rain received in Brazil's dry soybean producing areas. Potential business, especially in soybean oil to Russia contributed strength. Added support came from regulated selling at the farm level and steady crusher demand for soybeans. Chicago No. 1 yellow soybeans closed 17 cents higher per bushel. Minneapolis flaxseed traded up 10 cents per bushel with lack of country selling furnishing the strength as crushers have oil sale commitments to fill. Duluth sunflower seed price followed soybean markets up and finished 45 cents higher per hundred pounds.

Wheat shipped for storage in Canada is reported at time of shipment from Canadian ports.

#### Ports included in the general areas are:

#### **CANADIAN**

Seaway Ports: Baie Comeau, Port Cartier, Three Rivers, and Quebec City

Chicago Area: Chicago and Milwaukee

Toledo Area: Toledo, Huron, Oh, Erie, Pa. and Buffalo, N.Y. Saginaw Area: Saginaw, Carrollton and Zilwaukee, Mich.

North: Portland, Albany, and Philadelphia South: Baltimore, Norfolk, and Charleston

#### **GULF**

Mississippi River: New Orleans, Destrehan, Port Allen, Myrtle Grove, Ama, and Reserve

East Bulf: Mobile and Pascagoula

North Texas Gulf: Beaumont, Port Arthur, Houston, and Galveston
South Texas Gulf: Corpus Christi and Brownsville — Includes some rail shipments to Mexico

Columbia River: Portland, Kalama, Astoria, Longview, and Vancouver Puget Sound: Seattle and Tacoma

California: Long Beach, Stockton, San Francisco, and Sacramento

GRAINS: Inspections for export by ports and areas

#### Ports included in the general areas are:

#### **LAKES**

Chicago Area: Chicago and Milwaukee

Toledo Area: Toledo, Huron, OH, Erie, Pa. and Buffalo, N.Y. Saginaw Area: Saginaw, Carrollton and Zilwaukee, Mich.

#### **ATLANTIC**

North: Portland, Albany, and Philadelphia South: Baltimore, Norfolk, and North Charleston

#### **GULF**

Mississippi River: New Orleans, Destrehan, Port Allen, Myrtle Grove, Ama, and Reserve East Gulf: Mobile and Pascagoula

North Texas Gulf: Beaumont, Port Arthur, Houston, and Galveston

South Texas Gulf: Corpus Christi and Brownsville - Includes some rail shipments to Mexico

#### **PACIFIC**

Columbia River: Portland, Kalama, Astoria, Longview, and Vancouver Puget Sound: Seattle and Tacoma

California: Long Beach, Stockton, San Francisco, and Sacramento

- Includes waterway shipments to Canada.
- Shipped by rail to Canada.

GRAINS: Inspections for export by coastal areas and country of destinations

#### WEEKLY SUMMARY

#### FOR WEEK ENDED FEBRUARY 22, 1979

#### WHEAT AND FEED GRAIN MARKETS MOSTLY HIGHER

#### HIGHLIGHTS:

Wheat and feed grains traded mostly higher

across the Nation during the week ended February 22. Spreading conflict in Asia, unrest in other areas, combined with stronger precious metals markets, worked to move markets higher. Adding support was good export grain inspections, well regulated farm selling and reports of crop damage to Brazil and Argentina soybean and grain crops.

#### WHEAT:

Wheat markets moved higher in spite of

slowed export and flour mill demand. Much of the hard red winter wheat has suffered from adverse weather conditions and is reported in poor to fair condition. Snow cover has receeded and now only northern areas are well protected by snow. Kansas City hard red winter wheat closed 4 cents stronger and Minneapolis dark northern spring wheat moved 2 cents higher per bushel. Medium milling quality hard amber durum traded unchanged to 5 cents lower as mills turned selective buyers for slightly heavier receipts.

Chicago soft red winter wheat moved up 3 cents in dull trade but with stocks extremely short in the Chicago area. Portland soft white wheat held unchanged as Iranian wheat business continues to be delayed.

#### CORN:

Yellow corn markets found support from

expanded processor and feeder demand. Chicago No. 2 yellow corn finished 2 to 3 cents higher per bushel. Kansas City white corn fell 15 cents with no buying interest.

#### OATS AND BARLEY:

Oats markets moved mixed. The Chicago

market fell 2 cents with dull buying interest. Light receipts for a good demand at Minneapolis moved the market 1 to 4 cents higher per bushel. Minneapolis best malting barley held unchanged with good demand for light receipts. Feed barley markets moved mostly lower as the potato disposal program cut into barley feed usage in several areas. Los Angeles feed barley dropped 4 to 5 cents per bushel.

#### SORGHUM:

Sorghum tended to follow yellow corn markets

upward in spite of thin demand. Contributing support was resumption of shipments to California feeders for arrival after the March 1 tax deadline. Kansas City No. 2 yellow sorghum moved 4 cents higher and the Los Angeles market rose 2 to 4 cents per hundred pounds.

#### OILSEEDS:

Oilseed markets led other grains higher as

the January drought in Brazil and Argentina damaged soybean and grain crops. Higher precious metal markets added support. Chicago No. 1 yellow soybeans advanced 16 cents per bushel. Minneapolis flaxseed gained 15 cents. Duluth sunflower seed rose 60 cents at \$13.70 per hundred pounds.

#### WEEKLY SUMMARY

#### FOR WEEK ENDED MARCH 1, 1979

#### WHEAT MOSTLY HIGHER - BALANCE MIXED

Wheat markets closed mostly higher across the nation during the week ended March 1. Light farm selling furnished most strength as other news showed little constructive impact to prices. Flour mills bought to replace grind but lack of adequate rail cars held milling levels to less than full schedules. Extremely light soft red winter wheat deliveries at Chicago moved that market sharply higher. Large feed grain stocks overhanging the market and slowed export corn movement pressed feed grains markets mostly lower. Greening pastures cut feed requirements in southern areas.

Wheat markets moved mostly higher in thin trade. Light offerings met improved flour mill buying interest. Lack of adequate rail cars restricted trade. Kansas City No. 1 hard red winter ordinary protein wheat moved 1 cent higher with 13 pct protein trading 4 cents higher per bushel. Chicago soft red winter wheat advanced 19 cents as deliveries and stocks are extremely light.

Minneapolis dark northern spring wheat moved 1 cent higher. Medium milling quality hard amber durum closed 2 to 7 cents higher per bushel as mills competed for the light offerings. Portland soft white wheat finished unchanged after trading 2 cents lower at mid week. Prices rallied as ship loading to Iran resumed.

Yellow corn markets moved generally lower as feeder needs declined and large stocks weighed on markets. Pastures and wheat fields greened in southern areas. Chicago No. 2 yellow corn declined 2 cents per bushel. Export corn markets picked up strength from expanded new sales to U.S.S.R. and Egypt. White corn market were unchanged at Kansas City but the Atchison truck white corn market moved 5 cents higher per bushel on expanded processor demand and light offerings.

OATS AND BARIEY:

Oats markets moved mixed with the Chicago market down 5 cents due to lack of rail cars to move oats. The Minneapolis market rose 4 to 7 cents per bushel as mill demand went unsatisfied due to lack of adequate rail cars. Barley markets showed little activity except in the Minneapolis-Duluth area. Minneapolis best malting barley traded 5 cents higher as brewery demand expanded seasonally. Feed barley price rose 15 to 20 cents per bushel as traders attempted to acquire stocks in advance of openings of lake navigation. Western feed barley markets closed 1 to 3 cents lower due to lack of buying interest.

Sorghum markets closed mostly unchanged due to improved buying interest by exporters and light country offerings. The Kansas City market closed steady and Texas High Plains price also unchanged. California demand eased as a new freight rate increase went into effect this week and users wanted to deplete inventories before buying replacement feed.

Oilseed markets moved mixed as heavy delivery on Chicago soybean futures contracts pressured soybean markets lower. Chicago No. 1 yellow soybeans fell 4 cents per bushel. The decline was limited by slowed country selling, continued good export sales of soybeans, oil and meal and Brazil's lowered soybean crop estimate. Minneapolis flaxseed advanced 25 cents as crushers attempted to draw supplies from farms. Duluth oil type sunflower seed went up 10 cents at \$13.80 per hundred pounds.

## NATIONAL AGRICULTURAL SUMMARY For the Week of February 19-25, 1979

THE ECONOMICS STATISTICS AND COOPERATIVE SERVICE ANNOUNCED MODERATING TEMPERATURES MELTED SNOWCOVER ON GREAT PLAINS WHICH IMPROVED SOIL MOISTURE BUT EXPOSED SOME WHEAT STANDS TO WINDS. RAINS ACROSS SOUTHEAST AND ALONG WEST COAST MOVED SOIL MOISTURE INTO SURPLUS CATEGORY WHICH SLOWED LAND PREPARATIONS IN MOST AREAS. SOME LAND PLOWED AND FERTILIZED WHERE DRAINAGE ADEQUATE. VERY LITTLE FIELDWORK ACCOMPLISHED OUTSIDE OF EXTREME SOUTHERN AREAS OF UNITED STATES. WINTER WHEAT RATED FAIR TO MOSTLY GOOD THROUGHOUT MAJOR PRODUCTION AREAS. SNOWCOVER REMAINED ADEQUATE FROM NEBRASKA NORTHWARD. EARLIEST FIELDS IN SOUTHWEST MOVED PAST JOINTING STAGE AND ADVANCED INTO STEM ELONGATION STAGE. ONLY SOUTHERN PASTURES AVAILABLE FOR GRAZING BUT MANY OF THESE MUDDY WHICH LIMITED THEIR USE.

SMALL GRAINS: WINTER WHEAT RATED FAIR TO MOSTLY GOOD WITH GREENING REPORTED IN SOUTHERN GREAT PLAINS. SNOWCOVER RECEDED DURING PAST WEEK BUT BLANKETED CROP FROM NEBRASKA NORTHWARD. SNOWMELT IN NORTHWEST PROVIDED NEEDED SOIL MOISTURE AND SOME WINTERKILL BECAME EVIDENT BUT EXTENT OF DAMAGE UNKNOWN. CORN BELT WINTER WHEAT REMAINED UNDER MANTLE OF SNOW.

KANSAS WHEAT BEGAN GREENING IN WEST BUT SOME BLOWING RESULTED FROM HIGH WINDS AND ABSENCE OF SNOWCOVER. NO BARLEY OR OATS PLANTED WHILE NORMAL 4 PERCENT AND 6 PERCENT RESPECTIVELY IN GROUND, OKLAHOMA WINTER WHEAT RATED FAIR TO GOOD WITH CATTLE GRAZING 40 PERCENT OF ACREAGE. TEXAS WINTER WHEAT BEGAN GREENING ON NORTHERN HIGH PLAINS WITH SOME BLOWING ALSO REPORTED. HIGH PLAINS CROP NEEDED ADDITIONAL SOIL MOISTURE WHILE OTHER AREAS OF STATE HELD ADEQUATE WATER BUT NEEDED WARM CLEAR WEATHER FOR GROWTH.

ARIZONA WINTER WHEAT RATED GOOD WITH PROGRESS OF CROP REACHING STEM ELONGATION STAGE.

CALIFORNIA WHEAT MADE GOOD GROWTH. FARMERS SPRAYED FOR WEED CONTROL AND FERTILIZED. MELTING SNOW IN WASHINGTON IMPROVED SOIL MOISTURE FOR WINTER WHEAT.

OTHER CROPS:

Texas cotton harvest virtually complete with only few isolated stands remaining to be picked. Few growers in lower Rio Grande Valley planted some cotton but most farmers waited for warmer and drier weather. Snows delayed Oklahoma cotton harvest which stood at 94 percent complete. Arizona cotton harvest wound down while land preparation advanced for 1979 crop. California cotton producers performed pre-irrigation activities.

EARLY CORN AND SORGHUM PLANTING BEGAN IN FLORIDA, TEXAS AND ARIZONA.

### WEEKLY SUMMARY

### FOR WEEK ENDED MARCH 8, 1979

### SOYBEANS WEAKER - BALANCE MIXED

### HIGHLIGHTS:

Soybean markets weakened on news of increased soybean planting intentions with expanded carryover for oil and meal supplies next year. Wheat and feed grains closed mixed across the Nation during the week ended March 8. Tight rail car situation, muddy secondary roads, and high water levels on the river systems leading to gulf ports restricted grain movement.

Wheat markets closed in a mixed trend as flour mill WHEAT: business lagged but export trade continued at a brisk pace. Kansas City hard red winter wheat traded up 2 cents for ordinary and 13 percent protein wheat. Chicago soft red winter wheat eased 2 cents lower per bushel as truck receipts expanded.

Minneapolis dark northern spring wheat finished nearly steady with ordinary protein and 14 percent protein unchanged. Portland soft white wheat advanced 7 cents as export business picked up and traders pushed to cover commitments before the Columbia River is shut down for lock repairs March 18-31.

### CORN:

Yellow corn markets closed mostly higher under pressure of strong export demand. Chicago No. 2 yellow corn moved up 2 to 4 cents. Other markets moved mostly one to two cents higher. Kansas City white corn held unchanged in dull trade.

### OATS AND BARLEY:

market moved 1 cent higher.

Oats markets moved higher as good mill interest was met by light offerings. Chicago heavy oats moved up 5 cents and the Minneapolis market advanced 1 to 2 cents. Minneapolis best malting barley held firmly unchanged with seasonally expanded demand. Feed grade barley moved mixed, up 1 cent at Minneapolis and up 5 cents at Portland, but with the Stockton market 2 to 5 cents lower per bushel.

### SORGHUM:

Sorghum traded in a mixed price trend as export and California feeder demand firmed prices while the Texas High Plains market closed steady to 3 cents lower per hundred pounds and the Kansas City

### OILSEEDS:

Soybeans moved mostly higher during the week supported by good export demand for beans and good processor buying interest. At the close, weaker precious metal market and reports of increased carryover of oil and meal during the coming year weakened prices. Chicago No. 1 yellow soybeans finished 6 cents lower per bushel. Minneapolis flaxseed traded 10 cents higher as crushers raised bids to insure supplies. Sunflower seed held unchanged at \$13.80 per hundred pounds at Duluth in a dormant market.

### WORLD WEATHER AND CROP UPDATE

(February 26 - March 4, 1979)

U.S.S.R. Again this week, dry conditions with moderate temperatures dominated the weather over the winter grain areas of the Soviet Union. No precipitation was reported at most locations. The temperatures held sufficiently cold to maintain dormancy over most of the region, although warming over the weekend did move the snowline slightly northward across the Ukraine.

CHINA

Significant precipitation was limited to the southern rice-growing regions of China. The winter wheat region was dry. The good rains of the previous week should be adequate for the winter wheat crop for the moment, but the next two to four weeks will be very important as the crop begins to break dormancy.

AUSTRALIA

Rainfall over the northern parts of Australia ranged between 20 and 70 MM in most areas as two tropical storm systems produced rain almost every day. However, along the Northeastern Coast, totals accumulated as high as 313 MM. Only very light showers dampened the southern wheat producing areas.

INDIA

Rainfall over India continued seasonally light with scattered rains of 10 to 15 MM over the far northern states and the southern third of the country.

AFRICA

Rainfall continued over the northern wheat-growing areas in Morocco and Tunisia, but amounts were generally lighter than the previous two weeks. Overall, soil moisture in these areas should be much better than usual. However, South Africa's rainfall diminished again over the maize triangle after some seasonal rains the previous week. The maize crop already has been seriously reduced by the drought and the crop continues to deteriorate.

Precipitation fell very lightly across most of Western and Eastern Europe. The major exceptions were France, Belgium, and the Netherlands where 10 to 30 MM fell. Amounts in other areas were generally less than 5 MM. A general snowcover continues over the northern portions of Eastern Europe, but depths are steadily dropping. Southern Europe is snow-free except in the mountain areas.

SOUTH AMERICA

In comparison to the weather of the past three weeks, moisture was generally light over the major corn and soybean areas of Brazil. Except for southern portions of Rio Grande Do Sul, where 15 to 20 MM fell, amounts failed to reach 10 MM. This should help later southern area fields recover from the effects of the dryness in January. This week U.S.D.A. reduced its forecast for the Brazilian soybean crop with a new estimate of 10.5 to 11.5 million metric tons, but the potential recovery because of the rains remains an important question. With the rainfall amounts already received, soil moisture should be adequate to carry the crop through to maturity, although late-planted fields would benefit from one or two more good rains during the pod filling period.

### WEEKLY SUMMARY

### FOR WEEK ENDED MARCH 15

### MARKETS CLOSE MIXED

### HIGHLIGHTS:

reported across the Nation during the week ended March 15. Transportation problems continue with the rail car shortage only partially relieved by improved weather conditions. Thawing and flooding caused truck delivery problems and high water and ice restricted barge movement on the northern river system. The winter wheat crop emerged from dormancy and made good growth in the lower half of the hard red winter wheat belt. Moderating temperatures reduced animal feed requirements. Just as a new Brazil soybean crop forecast was published showing production reduced to a range of 11.3 to 11.6 million tons (by the Brazilian Government) and reduced to 10.5 to 11.5 million tons by the U.S.D.A., came reports of improved growing conditions which would tend to minimize drought damage. These reports contributed confusion to soybean trading. Well regulated producer selling of soybeans, wheat and feed grains added stability to the market.

Markets closed mixed for all grains

World reports showing increased wheat and

Oats market moved mixed with eastern

Soybean price movement continues to

### WHEAT:

feed grain supply caused wheat market weakness. Kansas City hard red winter wheat declined 4 to 8 cents per bushel. Chicago soft red winter wheat fell 35 cents as current stocks appear adequate to cover needs for the next few weeks. Minneapolis dark northern spring wheat markets moved 4 to 7 cents higher as light selling met good buying interest. Hard amber durum traded unchanged to 5 cents lower as demand eased in spite of light receipts. Portland soft white wheat closed 1 cent lower with adequate stocks to cover nearby commitments. Confusion as to status of Iran's wheat purchase tending to weaken traders value ideas.

### CORN:

Yellow corn finished mostly 1 cent lower to 1 cent per bushel higher. Feeding interest declined sharply but heavy export sales added strength. Producer selling fell off. Muddy roads, rail car shortage and slowed barge movement kept exporters bidding for supplies to fill export orders. Chicago No. 2 yellow corn closed unchanged to 2 cents higher per bushel.

### OATS AND BARLEY:

states demand slow but with the Minneapolis market stronger due to good buying interest. Chicago heavy oats dipped 3 cents lower as demand slowed. Minneapolis demand expanded however, and the market rose l cent per bushel. Minneapolis best malting barley moved 5 to 10 cents per bushel higher as light offerings met seasonally expanded demand. Feed barley markets turned mostly lower as sorghum traded generally lower. Kansas City yellow sorghum declined 2 cents per hundred pounds.

### OILSEEDS:

react to Brazilian crop news, crusher demand, export inspection reports and well regulated farm selling. Traders reported flooding along southern river bottom lands might delay soybean planting. This might result in some switching of planting intentions. Chicago No. 1 yellow soybeans ended 3 cents lower per bushel. Minneapolis flaxseed ranged 15 cents higher due to strong crusher demand and reduced farm offerings. Minneapolis oil type sunflower seed fell \$1.15 at midweek but recovered part of the loss to close down 80 cents per hundred pounds.

Wheat shipped for storage in Canada is reported at time of shipment from Canadian ports.

### Ports included in the general areas are:

### **CANADIAN**

Seaway Ports: Baie Comeau, Port Cartier, Three Rivers, and Quebec City

### **LAKES**

Chicago Area: Chicago and Milwaukee
Toledo Area: Toledo, Huron, Oh, Erie, Pa. and Buffalo, N.Y.
Saginaw Area: Saginaw, Carrollton and Zilwaukee, Mich.

North: Portland, Albany, and Philadelphia South: Baltimore, Norfolk, and Charleston

### **GULF**

Mississippi River: New Orleans, Destrehan, Port Allen, Myrtle Grove, Ama, and Reserve

East Bulf: Mobile and Pascagoula

North Texas Gulf: Beaumont, Port Arthur, Houston, and Galveston

South Texas Gulf: Corpus Christi and Brownsville - Includes some rail shipments to Mexico

Columbia River: Portland, Kalama, Astoria, Longview, and Vancouver Puget Sound: Seattle and Tacoma California: Long Beach, Stockton, San Francisco, and Sacramento

Source: Inspections for export under the U.S. Grain Standards Act.

GRAINS: Inspections for export by coastal areas and country of destinations

### Ports included in the general areas are:

### **LAKES**

Chicago Area: Chicago and Milwaukee Toledo Area: Toledo, Huron, OH, Erie, Pa. and Buffalo, N.Y. Saginaw Area: Saginaw, Carrollton and Zilwaukee, Mich.

### **ATLANTIC**

North: Portland, Albany, and Philadelphia South: Baltimore, Norfolk, and North Charleston

### **GULF**

Mississippi River: New Orleans, Destrehan, Port Allen, Myrtle Grove, Ama, and Reserve

East Gulf: Mobile and Pascagoula

North Texas Gulf: Beaumont, Port Arthur, Houston, and Galveston
South Texas Gulf: Corpus Christi and Brownsville – Includes some rail shipments to Mexico

### **PACIFIC**

Columbia River: Portland, Kalama, Astoria, Longview, and Vancouver Puget Sound: Seattle and Tacoma

California: Long Beach, Stockton, San Francisco, and Sacramento

### 2/ Includes waterway shipments to Canada.

### WEEKLY SUMMARY

### FOR WEEK ENDED MARCH 22, 1979

### WHEAT AND FEED GRAINS MOSTLY HIGHER

Wheat and feed grain markets moved to mostly higher price levels during the week ended March 22. Contributing strength was revised farm programs which extended 1978 wheat loans 6 months and permitted the alternative of grazing 1979 wheat crop. Traders expect that some acreage will be grazed, taking it out of production for this year. Export movement continues at a good pace. Well regulated farm selling contributed strength. Transportation continues a problem with inadequate rail facilities, flooding and high water levels on river system and weather related problems on highways causing difficulty in moving grain to market.

WHEAT: Wheat markets were mostly firm to stronger in spite of improved moisture conditions over most of the wheat belts. Extended loan program and grazing option added strength. Kansas City hard red winter wheat finished unchanged after trading higher at mid week.

Chicago soft red winter wheat declined sharply as the tight March futures situation was cleared and the market fell 11 cents per bushel. Minneapolis dark northern spring wheat moved higher as good mill demand and nearby lakes shipping season contributed strength. Prices advanced 1 to 4 cents per bushel with most strength for higher protein wheat. Durum wheat held unchanged all week with improved mill demand absorbing heavier offerings. Portland wheat markets were supported by expanded export potential as Iran was reported arranging ocean freight for Portland wheat. Minneapolis rye fell 5 to 7 cents as heavy receipts met light buying interest.

Yellow corn traded sharply higher. Value was supported by export and feeder usage. Chicago No. 2 yellow corn went up 6 cents per bushel. Kansas City white corn dropped 10 cents as plentiful supply met slow buying interest.

OATS AND BARLEY:

Oats markets moved slightly higher. Large stocks of lower than normal quality kept buyers selective and this restricted trading. Chicago heavy oats traded 1 cent higher per bushel. Minneapolis best malting barley moved unchanged to up 5 cents per bushel with expanding brewing season furnishing the strength. Feed grade barley trade dull and moved in a mixed price trend. The Portland market rose 3 cents while the Los Angeles market fell 1 to 2 cents per bushel as feeders turned to lower cost sorghum.

Sorghum traded mostly higher following corn except at Texas High Plains market where good pastures cut into usage. Kansas City yellow sorghum went up 5 cents but the Texas High Plains market was unchanged to 5 cents lower per hundred pounds.

OILSEEDS:

Oilseed markets found good support in continued large inspections for export, expanding oil and meal business in world markets and threat of flooding which may delay planting. Brazil cut off sales of soybean export authorizations until the production from the new crop could be reassessed. Chicago No. 1 yellow soybeans moved up 23 cents per bushel. Higher oil and meal prices supported the market as processors competed with exporters for light farm offerings. Minneapolis flaxseed moved 10 cents higher under good processor buying interest. Sunflower seed traded 75 cents higher with Duluth at \$13.75 and Minneapolis at \$13.65 per hundred pounds.

#### WEEKLY SUMMARY

#### FOR WEEK ENDED MARCH 30, 1979

#### WHEAT MOSTLY LOWER - FEED GRAINS MIXED

#### HIGHLIGHTS:

Wheat in feed grain markets traded higher across the Mation at mid week under upward pressure from higher silver market and good buying interest. Later pipelines filled as farm selling expanded and barges resumed movement to the Gulf. High water at Louisiana River terminals slowed ship loading and prevented barge unloading at some points. China cancelled a 300,000 ton wheat purchase adding downward points. Moisture conditions reported improved over nearly all the U.S. winter wheat area and this depressed wheat prices further.

#### WHEAT:

Wheat markets turned from storng mid week position when U.S. currency strengthened on reports on narrowed trade deficit. Improved moisture conditions over most of the U.S. winter wheat area contributed weakness. Kansas City hard red winter ordinary protein closed 2 cents over a week ago but fell 3 cents below the mid week high. Chicago soft red winter declined 2 cents per bushel. Minneapolis dark northern spring wheat declined 1 to 6 cents. Portland soft white wheat dropped 8 cents.

#### CORN:

Yellow corn markets moved mostly higher under pressure of heavy export sales, fairly good processor and feeder demand. Chicago No. 2 yellow corn closed 2 cents higher per bushel. White corn demand continued extremely slow and the Kansas City market fell 10 cents per bushel.

#### OATS AND BARLEY:

Oats markets declined as demand at Minneapolis faded as country selling turned heavy. Chicago heavy oats eased 1 cent lower while the Minneapolis market fell 10 to 12 cents per bushel. Best malting barley at Minneapolis held firmly unchanged as demand continued seasonal Portland feed barley dropped 4 cents as heavier arrivals met slowed feeder and export buying interest.

SORGHUM: Sorghum markets lacked firm direction but strong yellow corn markets gave support. Kansas City sorghum moved higher at the end of the period as some feeders switched to sorghum from higher cost corn. Closing price was up 5 cents per hundred from last week. Other markets held unchanged in dull trade.

#### OILSEEDS:

Oilseed markets moved mostly stronger supported by good export demand for soybeans and oil.
Chicago No. 1 yellow soybeans moved 1 cent higher. Minneapolis flaxseed held per bushel. Oil type sunflower seed moved stronger with the Duluth market 75 cents higher and Minneapolis market up 10 cents per hundred pounds.

<sup>1/</sup> The quantity of soybeans inspected at U.S. Ports for shipment to Canada is reduced by the amount of U.S. soybeans exported from Canadian Ports as reported by the Canadian Grain Commission. It is assumed this residual amount of soybeans is held in Canada for later export or consumption.

#### WEEKLY SUMMARY

#### FOR WEEK ENDED APRIL 5, 1979

#### SOYBEANS LOWER - WHEAT AND FEED GRAINS MIXED

#### HIGHLIGHTS:

Grain markets finished mixed the week ended April 5, 1979. Soybeans turned sharply lower

reflecting a fall off in weekly export inspections reports of larger soybean oil stocks and weakening silver futures. Corn markets gained support as export demand firmed and cool temperatures coupled with snow and rain to delay planting outlook. Transportation problems continue to plague grain marketings. Truck traffic was slowed on muddy midwest roads, high water restricted barge movement and rail car shortage went unabated.

#### WHEAT:

Wheat prices finished mixed with limited export and flour mill demand. New crop winter

wheat rated good but growth slowed by cold temperatures. Chicago soft red winter wheat fell 2 cents as present inventories met nearby needs. Kansas City hard red winter wheat ordinary protein closed 4 cents lower while 14 pct protein finished only 1/4 cent lower due to advancing protein basis as mills bought to fill nearby flour commitments.

Minneapolis dark northern spring wheat closed steady to 3 cents lower with mills showing most interest for lower proteins. Portland white wheat gained 2 cents per bushel under fair export and flour mill interest.

#### CORN:

Yellow corn traded mostly higher as weekly export inspections held above 40 million

bushels and Lake Ports geared up for start of shipping season. Feed demand expanded as southern poultry areas increased corn usage as more birds were placed for feeding. Deliveries to Gulf Ports were delayed by high water on northern rivers and closing of two locks on the Mississippi. Chicago corn gained 2 to 4 cents and Kansas City market rose 4 cents per bushel. White corn at Kansas City advanced 3 cents as extremely light offerings met mild buying interest.

#### OATS AND BARLEY:

Heavy oat market closed steady to weaker. Chicago No. 2 heavy oats held unchanged in

dull trade while Minneapolis oats fell 4 cents per bushel. At market close, country selling slowed and rains kept farmers out of fields, partially offsetting early losses. Barley markets finished steady to lower. Market activity dulled as trading slowed.

#### SORGHUM:

Sorghum prices were steady to higher. Kansas City sorghum closed unchanged and

Texas market advanced 5 to 10 cents as wet and cold weather has delayed field operations and outlook for renewed export interest.

#### OILSEEDS:

Soybeans trended lower on trade disappointment with 11.3 million bushels weekly export

inspections and larger than expected February soybean oil stocks report. The possibility that corn acreage may be switched to soybeans also weighed on market. Chicago soybeans closed down 19 cents per bushel. Minneapolis flaxseed gained 10 cents per bushel. Sunflower seed fell 40 cents per cwt as heavy country selling pressured markets at Duluth.

#### WEEKLY SUMMARY

#### FOR WEEK ENDED APRIL 13

#### GRAIN MARKETS FINISHED MIXED

#### HIGHLIGHTS:

Wheat and couse grains closed mixed across the Nation for the week ended April 12,

Prices followed irregular trends in Holiday shortened trading and ahead of planting intention reports. Soybeans fell on slowed weekly export inspection pace and anticipated expansion in soybean acreage. Wheat and corn markets firmed with pick-up in export and domestic demand for light farm offerings. Rains continued to delay field work, caused flooding and cut barge shipments of grains off northern river system.

#### WHEAT:

Most wheat markets finished steady to firm. Prices strengthened to expanded Kansas City hard red winter wheat 13%

export activity, and pick-up in flour mill demand. protein gained 6 cents as farm offerings held light and domestic flour business increased. Chicago soft red winter wheat held unchanged per bushel with light country sales against mild buying interest.

Exception to firm trend were Minneapolis markets where mill demand slowed to pressures of expanded rail offerings. Minneapolis dark nothern spring wheat 14% protein lost 5 cents and medium milling durum declined 5 to 15. Portland white wheat finished 3 cents above week ago levels with good potential for expansion in export business.

#### CORN:

Corn markets gained on export buying. High water on upper river system cut-

off supplies from northern parts of corn belt. First lake vessel of the season loaded out corn at Chicago. Rain and cold temperatures continue to prompt concern for new crop planting progress as traditional planting dates approach.

Yellow corn at Chicago moved 2 to 3 cents higher per bushel. Atchison white corn

truck bids advanced 10 cents as offerings thinned and processors sought corn for milling.

#### OATS AND BARLEY:

Oat prices moved mostly higher with cold temperatures and rains delaying seeding

over much of Midwest. Chicago heavy oats gained 4 cents with Minneapolis markets steady to 2 cents higher per bushel. Minneapolis best malting barley under strong demand advanced 10 cents per bushel as maltsters aggressively sought increased daily offerings. Portland barley ranged 3 to 5 cnets higher per bushel behind good domestic and export demand.

#### SORGHUM:

Sorghum prices closed mixed in dull trade with Midwest markets closing steady to firm

as price changes were mostly dictated by relationship with yellow corn. Kansas City sorghum moved up 1 cent and Texas High Plains finished steady to up 2 cents. Los Angeles markets fell 8 to 9 cents as demand for rail offerings slowed with most buyers drawing on present inventories.

#### SOYBEANS:

Soybears finished the week sharply lower. Prices declined mid-week as

weekly export inspections fell below trade expectations. Markets continued to weaken with uncertainty of actual outcome of Brazilian 1978-79 soybean crop, narrowed soybean crush margin limiting processor buyer interest and ahead of planting intention reports. Thought that rain delay of corn planting might cause switching to soybeans also pressured markets. Chicago soybeans fell 15 cents. Minneapolis flaxseed firmed 5 cents. Duluth sunflower seeds lost 30 cents per hundred weight with no quote at Minneapolis as storage space tightened at crushing plants.

at snipped for storage in Canada is reported at time of shipment from Canadian ports.

#### 1/ Ports included in the general areas are:

#### **CANADIAN**

Seaway Ports: Baie Comeau, Port Cartier, Three Rivers, and Quebec City

#### **LAKES**

Chicago Area: Chicago and Milwaukee
Toledo Area: Toledo, Huron, Oh, Erie, Pa. and Buffalo, N.Y.
Saginaw Area: Saginaw, Carrollton and Zilwaukee, Mich.

#### **ATLANTIC**

North: Portland, Albany, and Philadelphia South: Baltimore, Norfolk, and Charleston

#### **GULF**

Mississippi River: New Orleans, Destrehan, Port Allen, Myrtle Grove, Ama, and Reserve

East Bulf: Mobile and Pascagoula

North Texas Gulf: Beaumont, Port Arthur, Houston, and Galveston
South Texas Gulf: Corpus Christi and Brownsville – Includes some rail shipments to Mexico

Columbia River: Portland, Kalama, Astoria, Longview, and Vancouver Puget Sound: Seattle and Tacoma

California: Long Beach, Stockton, San Francisco, and Sacramento

#### Ports included in the general areas are:

#### **LAKES**

Chicago Area: Chicago and Milwaukee

Toledo Area: Toledo, Huron, OH, Erie, Pa. and Buffalo, N.Y. Saginaw Area: Saginaw, Carrollton and Zilwaukee, Mich.

#### **ATLANTIC**

North: Portland, Albany, and Philadelphia

South: Baltimore, Norfolk, and North Charleston

#### **GULF**

Mississippi River: New Orleans, Destrehan, Port Allen, Myrtle Grove, Ama, and Reserve

East Gulf: Mobile and Pascagoula

North Texas Gulf: Beaumont, Port Arthur, Houston, and Galveston

South Texas Gulf: Corpus Christi and Brownsville – Includes some rail shipments to Mexico

#### **PACIFIC**

Columbia River: Portland, Kalama, Astoria, Longview, and Vancouver Puget Sound: Seattle and Tacoma

California: Long Beach, Stockton, San Francisco, and Sacramento

#### Includes waterway shipments to Canada. 2/

#### WFFKLY SUMMARY

#### FOR WEEK ENDED APRIL 19

#### GRAIN MARKETS MIXED - UNDERTONE WEAK

#### HIGHLIGHTS:

Grain markets finished mixed across the Nation for the week ended April 19.

Trading continued at the dull pace of recent weeks. Buyers, resisting increases in ventories, bought to fill immediate needs. Source of support in markets was record setting weekly grain export inspection pace of 104 million bushels. April 16 USDA prospective planting intentions had a mixed effect on markets. The report showed a planned 7 percent increase in soybean acreage but a 1 percent decrease in corn acres for 1978 levels. High water restricted grain movement and caused flooding over much of the Nations waterways.

#### WHEAT:

Wheat markets traded mixed during the week. Domestic trading slowed as bakery

flour mills bought to cover immediate needs. Competition from foreign wheat continued to depress new export activity. Kansas City hard red winter wheat ordinary protein fell 4 cents with 13 percent protein unchanged from a week ago. New hard red winter wheat crop rated good with harvest approximately 30 days away in early maturing areas. Chicago soft red winter wheat stocks continued to decline and prices moved 1 cent higher per bushel.

Dark northern spring wheat at Minneapolis advanced 3 cents over a week ago prices. Supportive factor was expanded exporter demand after arrival of first ocean going vessel at Duluth/Superior ports. Portland soft white wheat prices closed unchanged. Expectation that Iran may pick up export loading tempo helped hold market firm.

#### CORN:

Corn prices finished mostly weaker. Buying interest dulled following a slowdown

in livestock feeder demand. Increases in rail offerings at most markets also pressured prices lower. Support had come at weeks start when weekly export inspection pace of 56.5 million bushels was only about 1 million bushels short of a record. Chicago yellow corn prices ranged 1 to 2 cents lower against week ago level and Kansas City multi-car corn markets fell 3 cents per bushel. White corn turned extremely dull with no trading reported all week.

#### OATS AND BARLEY:

Oats price traded steady to lower. Markets weakened under slowed eastern and midwest

demand. Minneapolis No. 2 heavy oats moved down 1 to 4 cents against week ago level. Barley markets finished steady to firm. Minneapolis better malting barley quotes held steady. Strong malster demand continued to support a firm market undertone.

#### SORGHUM:

Sorghum markets closed steady to weaker.

Domestic buyers showed very little interest

Domestic buyers showed very little interest for moderate offerings. Kansas City multi-car sorghum moved 12 cents lower. Texas markets were unchanged. Activity dulled with little domestic or export activity being reported.

#### OILSEEDS:

Soybean prices traded in sharp price swings all week. Market activity was generally thin

with exporters and domestic users under little pressure to build inventories. Pressuring soybean prices were 7 percent increase in acreage planting intentions and soybean harvest advancement in Brazil. Chicago yellow soybean prices finished the week one cent lower. Oil-type sunflower seed markets closed weaker. Market undertone at the closed firmed, however as storage space became available at Duluth/Superior ports. Duluth sunflower seed bid closed 20 cents lower per cwt.

#### WEEKLY SUMMARY

#### FOR WEEK ENDED APRIL 26, 1979

#### MOST GRAINS GAIN

#### HIGHLIGHTS:

Grain markets averaged higher across the Nation for the week

ended April 26. Expanded export wheat, corn and soybean activity contributed support. High water and wide spread flooding halted barge movement on portions of the Mississippi and Illinois Rivers. Rain and cold temperatures continued to delay spring field work in Northern Europe, Russia and USA. Producer selling of most grain held light throughout the period.

WHEAT:

Wheat markets finished strong behind new export wheat and

wheat flour sales, tight stocks and light producer selling. The 1979 winter wheat crop rated fair to good. Ample soil moisture benefitted western stand but cool temperature slowed plant development. Kansas City hard red winter wheat ordinary protein advanced 5 cents with 13 percent protein up the same amount. Chicago soft red winter wheat gained 7 cents with Toledo soft white wheat ending the week 8 cents stronger per bushel.

Dark northern spring firmed on good export and mill demand for light offerings. Arrivals at Minneapolis and Duluth thinned as flooding on Red River restricted rail and truck shipments from Dakotas. Minneapolis dark northern spring 14 percent protein finished 17 cents higher per bushel. Portland soft white wheat firmed on new export business and demand for wheat to fill committed sales, advancing markets 4 cents per bushel.

CORN:

Yellow corn markets received support from firm export demand

and light farm offerings. High water on Northern Rivers halted barge loadings and shipments. Expanded usage and heavy producer participation in government grain program tempered weight of a record corn stocks report. Chicago yellow corn moved up 3 cents per bushel. Reduced planting intentions, slow producer sales and firm mill demand supported white corn price advance. Kansas City white corn moved 5 cents higher per bushel.

#### OATS AND BARLEY:

Oat prices finished the period narrowly mixed. Buyer demand

slowed for ample offerings while wet fields cut spring seeding pace. Minneapolis No. 2 heavy oats fell 1 to 2 cents with Toledo markets steady to 1 cent firmer. Malting barley markets edged higher on continued strong malster demand. Minneapolis better malting barley advanced 5 to 10 cents.

SORGHUM:

Sorghum markets finished the week firm. Recent export activity

and advances in cash corn markets offset buying basis declines. Increased rail offerings and lack of buyer interest pressured domestic markets. Kansas City multi-car sorghum gained 5 cents with Texas market ending the week steady to 3 cents higher per cwt.

SOYBEANS:

Soybean markets closed firm reversing downtrend of past

weeks. Good export and processor demand for light farm offerings supported price gains. High water on northern river systems restricted barge loading and shipments. Final outcome of Brazilian soybean crop remains uncertain as rains interferred with harvest operations. Increases in export and domestic usage predicted to offset large U.S. soybean stocks holding season carryover at 140 million bushels. Chicago soybean edged l cent higher against last Thursday. Strong demand for small percent of old crop stocks pushed oil-type sunflower seeds at Duluth up 15 cents per cwt.

#### WEEKLY SUMMARY

FOR WEEK ENDED MAY 3, 1979

#### WHEAT AND FEED GRAIN MARKETS MOSTLY HIGHER

HIGHLIGHTS: Wheat and coarse grains traded lower at weeks' start following disappointing weekly export inspections and heavy delivery intentions against May futures contracts. Markets rallied at the close moving to mostly stronger positions across the nation during the week ended May 3. Expanding export demand for corn, soybeans, wheat and wheat flour supported advances. Wet and cold weather in northern growing regions of the world continued to delay plantings and threatened spring wheat crops. Despite rising prices producers maintained orderly marketing.

WHEAT:

Wheat prices finished the week stronger at all reporting markets as exporters and flour mills competed for light farm offerings. Export pace quickened following new sales of wheat and wheat flour. Trade indicated Russian entry to U.S. markets following reports of cold wet weather delaying spring field work and damaging wheat crop. U.S. winter wheat crop rated fair to good with adequate soil moisture in major production areas. Kansas City hard red winter ordinary protein advanced 6 cents with 13 pct protein 12 cents higher as hard red winter wheat futures gains offset declines in cash buying basis. Chicago soft red winter wheat traded 18 cents above last Thursday and Toledo soft white wheat moved up 15 cents per bushel. Portland soft white wheat rose 12 cents per bushel as trade sought supplies to fill committed sales.

Minneapolis dark northern spring wheat firmed as cold, wet weather kept producers out of fields and hampered growth of planted fields. Ordinary protein gained 13 cents with 14 pct advancing 12 cents per bushel. Good mill demand for light offerings pushed medium milling hard amber durum up 13 cents per bu. Rye market firmed 4 cents per bushel primarily on export demand from Duluth.

#### CORN:

Yellow corn markets gained steadily during the week as rain and cold weather continued to delay planting progress. Large export sales to Yugoslavia, Mexico and unknown destinations supported most price rises. Producer selling held light throughout the period. Chicago No. 2 yellow corn delivered in hopper cars moved up 8 cents. Kansas City multi-car yellow corn finished 11 cents higher with good interest from southern poultry feeders. Aggressive mill demand for thin offerings advanced Kansas City rail white corn 5 cents per bushel.

#### OATS AND BARLEY:

Oats market finished steady to higher as wet and cold soils continue to push oat planting past optimum dates. Minneapolis No. 2 heavy oats moved up 4 cents per bushel. Minneapolis best malting barley finished the week steady to 5 cents higher with good demand for the increased offerings.

#### SORGHUM:

Sorghum markets advanced with firm cash corn prices and increased export activity. Kansas City multi-car sorghum went up 8 cents with Texas markets ranging 10 to 15 cents higher per cwt.

#### OILSEEDS:

Oilseeds traded mixed during the week. Disappointing weekly soybean export inspections and heavy delivery intentions against May futures contracts moved soybean prices lower at weeks' start. Most markets rebounded at the close to increased export business and tight producer selling. Minneapolis soybeans advanced 6 cents with Kansas City up 4 cents per bushel. Chicago market finished 1 cent lower against last Thursday's price. Minneapolis oiltype sunflower seeds fell 25 cents per cwt as reduced crush weakened buying demand.

<sup>1/</sup> The quantity of corn inspected at U.S. ports for shipment to Canada is reduced by the amount of U.S. corn exported from Canadian Ports as reported by the Canadian Grain Commission. It is assumed this residual amount of corn is held in Canada for later export or consumption.

2/ White corn.

SOURCE: Inspection for export under the U.S. Grain Standards Act and the Canadian Grain Commission.

#### WEEKLY SUMMARY

#### FOR WEEK ENDED MAY 10, 1979

#### WHEAT FIRM - COARSE GRAINS MIXED

#### HIGHLIGHTS:

Wheat markets firmed and coarse grains traded mixed

across the Nation for the week ended May 10. Wheat prices edged higher as exporters and flour mills sought light old crop offerings. Weather continued in a factor in markets as rain, snow and cold weather in the west and midwest delayed spring planting and threatened crops already sown. Other world production areas in the northern hempisphere also reported wet and cold. Large U.S.S.R. corn purchases mid-week firmed yellow corn markets and partially offset earlier losses. Barge traffic moved freely on northern rivers with few delays reported due to high water.

WHEAT:

Wheat markets responded as weather delayed planting of

durum and spring wheat in nrothern production areas. Flour mills competed with exporters for remaining old crop supplies. Kansas City hard red winter wheat ordinary protein finished 4 cents above last Thursday. Chicago soft red winter wheat traded up 10 cents as active mill buying reduced stocks. Toledo soft white wheat moved up 3 cents.

Minneapolis dark northern spring wheat advanced 11 cents for all protein levels. Durum markets moved 12 cents higher as cold wet weather pushed planting past optimum dates.

CORN:

Corn market finished the week mixed. Clearing

weather over the weekend expanding field work and pickup in producer selling turned most prices lower at week's start. Markets responded to large midweek purchases by Russia and regained most of the earlier losses. Chicago yellow corn finished 2 cents above last Thursday as exporters sought grains to fill waiting vessels. Good mill demand for light offerings moved Kansas City white corn 5 cents higher per bushel.

#### OATS AND BARLEY:

Oats markets finished generally firm. Rain and cold weather

firm. Rain and cold weather continue to dim outlook for plantings. Minneapolis No. 2 heavy oats traded 9 cents higher. Barley markets finished steady to firm behind good export and domestic demand. Minneapolis feed barley held unchanged throughout the period, while Portland market gained 1 cent per bushel.

SORGHUM:

Sorghum markets showed little activity and traded

mixed. Firm cash corn and good domestic interest pushed Kansas City market up 6 cents per cwt. Texas prices moved down 5 cents as new crop planting progress and greening pastures cutting feed interest, pressured markets.

OILSEEDS:

Soybean markets followed choppy trade patterns

finishing the week lower. Slowed domestic and limited overseas interest for new sales weighed on markets. Chicago yellow soybeans **fini**sh**ed** the week 10 cents lower. Minneapolis flaxseed held at \$7.40 all week. Duluth oil-type sunflower seeds moved up from week's lows to finish unchanged from last week. Delivery of sunflower seeds to crushing plants slowed as soft roads hampered truck movement.

**GRAINS:**

Wheat shipped for storage in Canada is reported at time of shipment from Canadian ports.

#### Ports included in the general areas are: 1

**CANADIAN** 

Seaway Ports: Baie Comeau, Port Cartier, Three Rivers, and Quebec City

**LAKES** 

Chicago Area: Chicago and Milwaukee
Toledo Area: Toledo, Huron, Oh, Erie, Pa. and Buffalo, N.Y.
Saginaw Area: Saginaw, Carrollton and Zilwaukee, Mich.

North: Portland, Albany, and Philadelphia South: Baltimore, Norfolk, and Charleston

Mississippi River: New Orleans, Destrehan, Port Allen, Myrtle Grove, Ama, and Reserve

East Bulf: Mobile and Pascagoula

North Texas Gulf: Beaumont, Port Arthur, Houston, and Galveston South Texas Gulf: Corpus Christi and Brownsville — Includes some rail shipments to Mexico

**PACIFIC** 

Columbia River: Portland, Kalama, Astoria, Longview, and Vancouver

Puget Sound: Seattle and Tacoma

California: Long Beach, Stockton, San Francisco, and Sacramento

#### Ports included in the general areas are:

LAKES

Chicago Area: Chicago and Milwaukee

Toledo Area: Toledo, Huron, OH, Erie, Pa. and Buffalo, N.Y. Saginaw Area: Saginaw, Carrollton and Zilwaukee, Mich.

**ATLANTIC** 

North: Portland, Albany, and Philadelphia South: Baltimore, Norfolk, and North Charleston

**GULF** 

Mississippi River: New Orleans, Destrehan, Port Allen, Myrtle Grove, Ama, and Reserve

East Gulf: Mobile and Pascagoula

North Texas Gulf: Beaumont, Port Arthur, Houston, and Galveston South Texas Gulf: Corpus Christi and Brownsville — Includes some rail shipments to Mexico

Columbia River: Portland, Kalama, Astoria, Longview, and Vancouver Puget Sound: Seattle and Tacoma

California: Long Beach, Stockton, San Francisco, and Sacramento

#### 2/ Includes waterway shipments to Canada.

### WEEKLY SUMMARY

### FOR WEEK ENDED MAY 17

### WHEAT MOSTLY LOWER-FEED GRAINS MIXED

### HIGHLIGHTS:

Wheat markets showed strength at mid-week but fell sharply on news

that farmer held wheat reserve had reached price levels that would trigger release of around 400 million bushels. Additional weakness came from warmer weather and drying winds which hastened maturity of winter wheat and dried soils, permitting resumption of field work and spring wheat planting. Yellow corn moved mixed as heavy inspections for export last week was countered by expanded field work and heavy corn planting this week. Soybeans showed easiness early in the week but turned stronger at the close as corn planting turned heavy, lessening the possibility for expanded soybean acreage. Release of large farmer held wheat reserve expected to tie up much of the country's rail transportation facilities and this would lessen transportation availability to feed grains and soybeans. This tended to raise net bids as processors needed soybeans to fill heavy crush commitments.

### WHEAT:

The big news affecting wheat markets was triggered release of

farmer held wheat reserve, which would free 400 million bushels. Contributing to the general weakness was hand to mouth buying by flour mills and exporters as they waited for new crop pressure to lower market prices. Warm sunny weather hastened maturity of winter wheat and permitted planting of spring wheat. Kansas City hard red winter ordinary protein wheat declined 5 cents compared with last week, but was 43 cents over year ago market.

Minneapolis dark northern spring 14 percent protein fell 12 cents but this was 37 cents above last year. Portland soft white wheat closed up 2 cents, 33 cents above year agao level. Chicago No. 2 soft red winter wheat fell 7 cents which is 70 cents over year ago price level.

### CORN:

Planting conditions turned favorable with sharp expansion of field work

and rapid planting over much of the corn belt. Chicago No. 2 yellow corn finished 5 cents lower. Feed grain prices closed about in line with year ago levels. Kansas City white corn traded unchanged all week after recent price advances brought offerings in line with processor needs.

### OATS AND BARLEY:

Oats markets finished mixed as planting weather turned favorable. Chicago

heavy oats went up 3 cents which is 7 cents below year ago level. Minneapolis price fell 1 to 2 cents per bushel. Minneapolis best malting barley ranged 5 to 10 cents higher and feed grade advanced 10 cents per bushel.

### SORGHUM:

Sorghum trade slowed most of the period as most interest was in

new crop Texas production to move into Mexico. Late week pick up in processor demand raised prices from mid-week low at Kansas City, closing 6 cents lower for the week and 2 cents higher per hundred pounds than a year ago. Texas High Plains sorghum moved steady to 5 cents higher.

### OILSEEDS:

Oilseed markets firmed as weather favored plowing and planting over interest added strength. Chicago

much of the Corn Belt. Strong soybean crusher buying interest added strength. Chicago No. 1 yellow soybeans moved up 7 cents per bushel. Duluth sunflower seed traded 40 cents per hundred pounds higher.

## WEEKLY SUMMARY FOR WEEK ENDED MAY 24, 1979

### WHEAT AND FEED GRAINS MIXED

### HIGHLIGHTS:

Wheat and feed grain markets closed in a mixed price trend across the nation during the week ended May 24. Spring crop planting made substantial progress over much of the U.S. and in Russia. Export activity slowed but farmers were busy planting crops and little selling pressure developed at the farm level. Rail car shortage hampered grain movement in western areas. Areas served by navigable rivers reported adequate transportation, especially along the Mississippi River as ships waiting to be loaded at Gulf Ports declined sharply due to increased ocean freight cost. Shippers showed serious concern over the diesel fuel tightness and spiraling cost.

WHEAT:

Portland white wheat moved higher on new export sales during the week. Soft white wheat closed up 4 cents, this is 30 cents over year ago price. Spring wheat planting moved rapidly ahead during the week but still lags behind normal for this time of the year. Minneapolis dark northern spring wheat traded up 4 cents per bushel for ordinary and 14 pct protein wheat. This is 36 to 41 cents above last season. Medium milling quality hard amber durum advanced 30 cents as ships waited to be loaded at Duluth. This market is 50 cents above last season at the comparable time.

Hard red winter wheat trading slowed as ship numbers fell off at Gulf Ports. Prices eased lower but the decline was regulated by slowed offerings at the farm level. Kansas City hard red winter wheat ordinary protein fell 2 cents with 13 pct protein down 3 cents per bushel, 34 and 30 cents respectively above prices last season. Chicago soft red winter wheat dropped 13 cents as buying interest slowed.

CORN:

Continued heavy corn inspections for export reports kept yellow corn markets firm in spite of rapid planting progress for the new crop. Chicago No. 2 yellow corn went up 4 cents per bushel. Yellow corn prices are about in line with year ago markets. White corn markets showed light activity with little selling or buying interest during the week. Kansas City No. 2 white corn held unchanged all week, 67 cents below year ago price level.

OATS AND BARLEY:

Slow oats buying interest kept the market inactive at Chicago and Minneapolis. Chicago heavy oats held steady compared with a week ago but 10 cents below year ago prices. Minneapolis best malting barley held steady all week, up 15 to 35 cents compared to year ago prices. Feed barley markets showed little activity with prices mixed. Minneapolis market steady, Portland up 7 cents and Stockton market down 2 to 3 cents per bushel.

SORGHUM:

Sorghum prices moved mixed as offerings fell off sharply in Texas where rain continues to delay planting. Midwestern areas moved sorghum in an effort to clean out storage for the rapidly approaching wheat harvest. Kansas City sorghum traded 1 cent lower while the Texas High Plains market rose 5 to 10 cents per hundred pounds.

OILSEEDS:

Soybean planting made good progress in the southern half of the production areas. Prices continued to fluctuate but held mostly in narrow ranges as offerings barely met export and processor needs. Chicago No. 1 yellow soybeans closed unchanged last week, 14 cents below year ago price levels. Minneapolis flaxseed held unchanged all week but \$1.15 above year ago. Duluth sunflower seed fell below last week and sharply below midweek price levels. Oil type closed 10 cents below last week but up \$1.25 per hundred pounds compared with last year.

### WEEKLY SUMMARY

## FOR WEEK ENDED MAY 31, 1979

### WHEAT AND FEED GRAINS MOSTLY STRONGER

HIGHLIGHTS: Wheat and feed grains traded at mostly stronger price levels across the nation during the week ended May 31. Changing weather pattern influenced price movement as drying conditions over much of the newly planted oats, corn and soybean acreage threatened crop production. Rains over southern areas delayed haying operations and wheat harvest. Canadian and Australian cut back in shipping potential contributed some strength. Higher fuel cost and scarcity of diesel fuel for inland waterways and ocean transport complicated scheduling grain movement.

WHEAT:
Wheat markets turned mostly higher as wet conditions in southern areas delayed harvest. Farmers sold old crop wheat sparingly and export demand continued at a strong pace. Flour mills competed with exporters for supply. Kansas City hard red winter wheat moved 8 cents higher, this is 52 cents above a year ago. Chicago soft red winter wheat advanced 19 cents compared with week ago price and 64 cents above last season.

Minneapolis dark northern spring wheat moved up 8 cents during the week which is 51 cents over year ago level. Medium milling quality hard amber durum fell 30 cents as mill and elevator buying fell off, leaving export the only outlet. Current durum price is 15 cents above last season. Portland wheat prices moved higher reflecting continuing export buying interest and a winter damaged white wheat crop. No. 1 soft white wheat traded 3 cents higher, this is 43 cents over year ago market.

Yellow corn markets moved barely steady to stronger as planting made rapid progress but warm temperatures and high winds dried top soil and threatened newly planted stands. Chicago No. 2 yellow corn in hopper cars ranged 2 cents higher and this is up 9 cents compared with last season. Kansas City white corn held unchanged all week with little selling or buying pressure. A year ago the market was 67 cents above current price.

OATS AND BARLFY:

Oats markets moved mixed as the Chicago market reacted to poor spring planting weather and an expanded demand to move up 8 cents per bushel, 4 cents over year ago price. The Minneapolis market held unchanged as buying interest fell off.

Minneapolis best malting barley traded unchanged to 5 cents lower as farmer offerings expanded. Year ago prices were 20 to 35 cents under the current market. Minneapolis feed grade barley held unchanged all week but 5 to 15 cents over year ago. California feed barley markets moved higher for the week but closed below year ago price levels.

SORGHUM:
Yellow sorghum showed strength in all markets as rains delayed harvest in southern Texas and farmers sold only small amounts. Demand from feeders, processors and exporters was unfilled by the light offerings. Kansas City market advanced 4 cents and 6 cents per hundred pounds over year ago figures. Texas High Plains market rose 10 cents compared with last week and steady to 5 cents over last year.

OILSEEDS:

Soybean markets firmed under good processor demand and light farm offerings in spite of reduced export movement. Chicago No. 1 yellow soybeans traded 5 cents higher, also up 5 cents compared with a year ago. Illinois Processor bids moved up 4 cents compared with last week and up 10 to 12 cents compared with last season. Minneapolis flaxseed held unchanged all week and 75 cents over year ago market. Duluth oil type sunflower seed declined 30 cents per hundred pounds but was \$1.15 over last season. Declining sunflower seed oil market depressed the market.

# WEEKLY SUMMARY FOR WEEK ENDED JUNE 7, 1979

MOST WHEAT AND FEED GRAINS MOVED HIGHER

Most wheat and feed grain

HIGHLIGHTS:

markets moved higher across the

Nation during the week ended June 7. Contributing support was: Rain delayed wheat harvest in Texas and Oklahoma, continued buying of large amounts of U.S. grains by Russia, larger inspections for export grain figures for last week, and dry weather hampering planting wind up of row crops in the Midwest. Contributing downward pressure was news of full pipelines and lack of sufficient ships waiting at ports to load export grain shipments. Transportation shortage further complicated by scarce higher cost fuel.

WHEAT:

Hard red winter wheat and dark northern spring wheat

markets turned stronger on good export sales both for old crop and new crop position. Reports of rain delayed winter wheat harvest and poor crop conditions for white wheat contributed strength. Kansas City hard red winter ordinary protein wheat traded 10 cents higher for the week and 66 cents per bushel over year ago markets. Chicago soft red winter wheat fell 3 cents as traders were able to buy nearby requirements. Current price is 62 cents over year ago price level.

Minneapolis dark northern spring wheat moved up 11 cents for 14 percent protein, 65 cents over year ago. Concern over possibly lower protein levels in new crop wheat and late planting of the Canadian crop contributed support. Portland soft white wheat advanced 12 cents, this is 55 cents over year ago market. Light farmer selling and a reduced white wheat crop prospect firmed the market.

CORN:

Yellow corn traded mixed as demand continued at heavy

rate but full pipelines and lack of adequate transportation facilities weakened some markets. Chicago No. 2 yellow corn fell 1 cent but this is 14 cents over last season. The Memphis market closed unchanged to up 8 cents per bushel. Kansas City No. 2 white corn moved 10 cents higher as processors attempted to pull stocks out of farm hands. Current price is 57 cents below last season.

OATS AND BARLEY:

Oats markets moved higher under pressure of trade concern for

quality and quantity of the new crop. Chicago No. 2 heavy oats ranged 1 cents higher which is 9 cents over last year. Minneapolis best malting barley traded unchanged to 25 cents lower due to continued heavy offerings. Feed barley markets closed in a mixed price trend.

SORGHUM:

Yellow sorghum markets responded to tight producer holding and

good processor and feeder interest to move higher at all reporting markts. Higher wheat middlings contriubted support. Kansas City sorghum finished firm and 1 cent higher, up 19 cents per hundred pounds compared with year ago figures. Texas High Plains market steady to 5 cents higher.

OILSEEDS:

Russian pruchase of 300,000 tons of U.S. soybeans with

trade anticipation of further substantial purchase of soybeans moved soybean markets sharply higher. Chicago No. 1 yellow soybeans traded 9 cents higher up 59 cents compared with last season. Minneapolis flaxseed ranged 30 cents higher under good processor buying interest. Current price is 95 cents a bushel over last year.

#### WEEKLY SUMMARY

#### FOR WEEK ENDED JUNE 14, 1979

#### WHEAT, SOYBEANS AND FEED GRAINS SHARPLY HIGHER

#### HIGHLIGHTS:

Markets moved sharply higher across the Nation during the week ended June 14. Market moving information originated mostly in the huge potential

export demand for U.S. Agricultural products. Drought and unusual winter kill in Russia and Eastern Europe coupled with late planting in many other world production areas spurred upward price movement.

#### WHEAT:

Wheat markets responded to news of drought in Russia and East

European winter wheat areas. Prices moved to new season highs with up limit moves reported during the week. Well regulated farm selling contributed underlying support. Kansas City hard red winter wheat moved sharply higher in spite of satisfactory new crop harvest in Southwestern areas. Kansas City ordinary protein wheat moved up 47 cents, this is \$1.19 per bushel over year ago.

Chicago soft red winter wheat moved up as lack of farmer selling forced higher bidding to acquire stocks. Chicago soft red winter wheat went up 56 cent, \$1.36 higher than last season. Minneapolis dark northern spring wheat, 14 percent protein advanced 49 cents up \$1.22 from year ago. Medium milling quality durum under good mill demand rose 50 cents or \$1.00 to \$1.10 over year ago figures. Portland soft white wheat moved up 37 cents, 82 cents over last year.

#### CORN:

Yellow corn markets continued higher in spite of reduced

export activity, drawing strength from sharply higher wheat markets and good domestic feed business. Potential additional large sales to Russia, Easter Europe and West Germany contributed support. Chicago No. 2 yellow corn traded 11 cents higher, up 28 cents over year ago. Kansas City white corn moved 10 cents higher as processors sought supplies and farm selling remained very light. Current prices fell 47 cents a bushel below year ago figures. With the short south African crop and reduced U.S. plantings, farmers are content to wait for stronger markets.

#### QATS AND BARLEY:

Broad buying interest moved oats markets higher. Chicago heavy

oats traded 7 cents higher and this was 15 cents over last season. Minneapolis best malting barley traded steady to up 10 cents, up 25 to 35 cents over last year. Feed barley markets moved generally 2 to 3 cents higher in slow trade.

#### OILSEEDS:

Oilseed markets moved higher as world crop reports indicate

the U.S. would be the main supplier of protein feeds due to winter kill in many parts of the world with drought limiting new crop prospects in several countries. Chicago No. 1 yellow soybeans rose 32 cents, up \$1.07 from last year. Minneapolis flaxseed advanced 30 cents up \$2.00 compared with year ago figures. Russian short sunflower seed production last year and poor prospects this year moved sunflower seed sharply higher. Duluth market advanced \$1.10, up \$3.55 per hundred pounds compared with last season.

#### SORGHUM:

Sorghum found expanded usage as cash corn moved sharply higher.

Kansas City market rose 33 cents up 59 cents over last season. Texas High Plains market ranged 30 to 35 cents higher.

Wheat shipped for storage in Canada is reported at time of shipment from Canadian ports.

#### Ports included in the general areas are:

#### **CANADIAN**

Seaway Ports: Baie Comeau, Port Cartier, Three Rivers, and Quebec City

#### **LAKES**

Chicago Area: Chicago and Milwaukee
Toledo Area: Toledo, Huron, Oh, Erie, Pa. and Buffalo, N.Y.
Saginaw Area: Saginaw, Carrollton and Zilwaukee, Mich.

#### **ATLANTIC**

North: Portland, Albany, and Philadelphia South: Baltimore, Norfolk, and Charleston

#### **GULF**

Mississippi River: New Orleans, Destrehan, Port Allen, Myrtle Grove, Ama, and Reserve

East Bulf: Mobile and Pascagoula

North Texas Gulf: Beaumont, Port Arthur, Houston, and Galveston

South Texas Gulf: Corpus Christi and Brownsville - Includes some rail shipments to Mexico

#### **PACIFIC**

Columbia River: Portland, Kalama, Astoria, Longview, and Vancouver Puget Sound: Seattle and Tacoma

California: Long Beach, Stockton, San Francisco, and Sacramento

Source: Inspections for export under the U.S. Grain Standards Act.

CORRECTION: January 1979 - Hard Red Spring from Seaway Ports should be 101,000 bu. instead of 73,000 bu.

WHEAT: Inspections for export by classes,

coastal areas, and country of destination,

May 1979

#### WEEKLY SUMMARY

## FOR WEEK ENDED JUNE 21, 1979 - MARKETS MOVE SHARPLY HIGHER

#### HIGHLIGHTS:

Wheat and feed grain markets moved sharply higher across

the Nation during the week ended June 21. Strength originated in the Predicted short U.S.S.R. grain crop; drought damage to east European grain crop; Argentina stopping further export sales of grain in order to protect domestic needs and labor problems in Canada and Australia which tend to limit export potential from these countries. The U.S. trucker strike added confusion and worsened the rail car shortage.

WHEAT:

The U.S. is now apparently the main supplier of the

world's grain needs for the coming year. Large Russian purchases of wheat and corn moved prices sharply higher. Kansas City hard red witner ordinary protein wheat moved 27 cents higher and this is \$1.36 over year ago price. Chicago soft red winter wheat rose 27 cents, up \$1.55 compared with year ago prices.

Minneapolis dark northern spring 14 percent protein traded up 31 cents, \$1.49 over last season. Portland soft white wheat moved up 35 cents \$1.18 over last year.

CORN:

In spite of a record carryover of U.S. yellow

corn, cash corn markets moved sharply higher as world grain supplies were assessed short of needs with the U.S. becoming the major source rather than a residual supplier. Chicago No. 2 yellow corn went up 23 cents, 46 cents a bushel over year ago. Kansas City white corn advanced 10 cents as processors attempted to pull stocks out of farm hands. Current price is 37 cents a bushel under year ago figure.

#### OATS AND BARLEY:

Oats markets showed a wide range of price reaction as

dull demand held Chicago market to a l cent advance while the Toledo market moved l to 5 cents higher due to expanded demand. Expanded export buying raised feed barley markets. Malting barley markets moved higher as country offerings turned light. Minneapolis best malting barley ranged 10 to 30 cents higher, this is 50 to 60 cents over last year. Portland feed barley traded 10 cents higher, up 5 cents compared with last season.

SORGHUM:

Buying interest expanded and prices moved up in spite

of harvest momentum picking up in Texas. Kansas City market rose 44 cents, 84 cents over year ago. Texas High Plains market advanced 60 to 65 cents per hundred pounds. Higher cost millfeeds contributed strength at the close.

OILSEEDS:

Light farm offerings coupled with truck strike

limiting movement caused exporter and processor competition. Chicago No. 1 yellow soybeans moved 56 cents higher, up \$1.38 over year ago market. Minneapolis flaxseed rose 5 cents with practically no farm to market movement. Current price is \$2.05 over last season. Duluth sunflower seed rose 55 cents per hundred pounds, up \$4.05 compared with last year.

#### WEEKLY SUMMARY

#### FOR WEEK ENDED JUNE 28, 1979

#### SOYBEANS SHARPLY LOWER - MOST WHEAT AND FEED GRAIN MARKETS DECLINE

#### HIGHLIGHTS:

Soybean markets responded to timely rains and larger plantings to fall sharply at the close of the week. Most wheat and feed grain prices moved lower across the Nation during the week ended June 28. U.S. and other large grain producing countries experienced greatly improved crop outlook as rains fell over most of the dry areas. All U.S. grains reached reserve release level while oats and barley attained call level. Wheat and corn neared call level. Heavy liquidation of nearby conracts occurred at major grain exchanges pressuring futures markets lower. Farm selling expanded early in the week resulting in hedge pressure. Newly combined wheat showed

surprisingly large yields in early fields with indication of large yields in later areas. Farmers marketed newly harvested wheat in amounts large enough to cover combining cost. Lack of adequate storage and transportation facilities forced more grain on the market.

#### WHEAT:

Early harvested fields of hard red winter wheat showed larger than expected yield and protein values. Farmer offerings expanded and traders liquidated nearby positions in large numbers. Transportation shortage caused additional weakness. Kansas City hard red winter wheat fell 12 cents but \$1.32 higher than year ago figure. Chicago soft red winter wheat declined 23 cents, \$1.44 over last season.

Minneapolis dark northern spring dropped 18 to 19 cents with 14 percent protein down 18 cents, this is \$1.42 over last season. Medium milling quality hard amber durum advanced 25 cents, \$1.70 to \$1.75 over last year. Portland soft white wheat moved 13 cents lower, \$1.09 to \$1.13 over last season. Minneapolis rye advanced 10 to 15 cents under good distiller demand.

#### CORN:

Yellow corn market weakened under pressure of old crop holdings and improved new crop prospects. Chicago No. 2 yellow corn fell 11 cents but ranged 48 cents over last year. Kansas City white corn moved 15 cents higher but closed 22 cents a bushel

#### OATS AND BARLEY:

under year ago market.

Oats and barley moved mixed. Trader concern over yields and quality of new crop offset weakness as both grains reached reserve call level. Chicago heavy oats moved 3 cents higher, up 34 cents over last year. Toledo market declined 4 to 5 cents per bushel. Minneapolis best malting barley went up 10 cents under good brewing interest. Portland feed barley moved higher under good export potential and prices advanced 6 cents, 57 cents over last season.

#### SORGHUM:

Sorghum markets eased 3 to 5 cents lower. Kansas City market fell 5 cents but remained \$1.05 over year ago prices. Texas High Plains market went down 5 cents as harvest tempo picked up.

#### OILSEEDS:

Oilseed markets declined sharply as larger U.S. acreage and improved crop prospects pressured markets. Chicago No. 1 yellow soybeans fell 66 cents, 80 cents over last season. Minneapolis flaxseed eased 5 cents lower, \$2.60 per bushel over last year. Duluth sunflower seed went down 95 cents per hundred pounds. Current market is \$3.65 per hundred pounds over last season.

#### FUEL AND TRUCK STRIKE UPDATE - JUNE 26, 1979

THE TRUCK STRIKE, ALTHOUGH CONTINUING, IS NOT INTENSIFYING. MINIMAL EFFECT ON TRUCK MOVEMENTS SINCE LIFTING OF SPECIAL RULE No. 9. CONNECTICUT JOINS MISSOURI AND IOWA INCREASING WEIGHT LIMITS TO 80,000 POUNDS. ILLINOIS, MISSISSIPPI, INDIANA, ARKANSAS, TENNESSEE, PENNSYLVANIA, MARYLAND, AND THE DISTRICT OF COLUMBIA CONTINUE WEIGHT RESTRICTIONS AT 73,280 POUNDS.

#### ICC ACTION

Diesel fuel shortfalls have resulted in curtailed train operations. Result: The Interstate Commerce Commission implemented car service order No. 1383 on June 25. This service order, which the Office of Transportation supported, gives priority in movement of fuel and other essential commodities. What does it mean? Any railroad which is unable to transport all of the freight which it would normally move may give priority in movement to: 1) animal and poultry feed, 2) food for human consumption, 3) grain, 4) soybeans, and 5) other agricultural products for processing into foods for either human or animal consumption and, 6) empty mechanical refrigerator cars.

MEAT—LATEST INFORMATION INDICATES MEAT IS BECOMING A MOST SERIOUS PROBLEM! NATIONWIDE SITUATION INDICATES MOVEMENT OF FED CATTLE IS DRASTICALLY DOWN. PACKING PLANTS CANNOT MOVE MEAT TO CONSUMING AREAS.

FRUITS AND VEGETABLES—FLORIDA STATE OFFICIALS SAY THE WATERMELON CROP STILL SERIOUS. THEY SAY MUCH OF CROP IS DETERIORATING IN THE FIELDS. MANY PERISHABLE GROUPS ARE BEGINNING TO USE RAIL EQUIPMENT FOR MOVEMENT OF SWEET CORN, WATERMELONS, AND POTATOES OUT OF FLORIDA. HOWEVER, IN SOUTH CAROLINA PRODUCTS ARE MOVING WITH MINIMUM PROBLEMS. PRODUCTS FROM CALIFORNIA ARE SHIPPED BUT PREMIUM RATES ARE BEING PAID — \$4500 AND UP FOR TRUCKLOAD OF LETTUCE.

GRAIN—FIRM ACTION IN MINNESOTA HAS RESOLVED MANY OF THE STATE'S PROBLEMS. TRUCK TRAFFIC TO TERMINALS IN DULUTH ARE UP 2 1/2 TIMES OVER FRIDAY'S. WINONA TRAFFIC YESTERDAY HAS 150 TRUCKS LOADING TWO BARGES: OPPOSED TO NO MOVEMENT LAST WEEK; SAVAGE TERMINALS HAD ZERO MOVEMENT LAST WEEK, 700 TRUCKS YESTERDAY LOADING 8 BARGES.

MILK-LITTLE DISRUPTION IN THE MOVEMENT OF MILK FROM FARMS TO PROCESSING PLANTS AND ON TO DISTRIBUTION OUTLETS. THE FEW PROBLEMS HAVE BEEN ISOLATED SITUATIONS AND OF A MINOR NATURE.

<u>INTERESTING POINT</u>—Major farm groups met today with representatives of independent owner-operations in an effort to bring the work stoppage to an end. The independents asked for and got the farm group's agreement to assist in getting:

- 1) USDA TO REPORT ON A WIDESPREAD, CONTINUOUS BASIS THE FREIGHT CHARGES OFFERED FOR TRUCKING OF EXEMPT AGRICULTURAL COMMODITIES.
- 2) USDA DEVELOPMENT OF, AND CONTINUOUS UPDATING, OF TRUCK OPERATING COSTS.
- 3) REGULATION AND BONDING OF TRUCK BROKERS
- 4) STANDARD CONTRACTS FOR HAULING.
- 5) RESOLUTION OF THE "LUMPER" PROBLEM.

NOTE THIS—THE FARM GROUPS AGREED TO HELP ON THESE ITEMS IF THE TRUCKERS WOULD GO BACK TO WORK. HOWEVER, THE MEETING BROKE UP AND NO AGREEMENT WAS REACHED WHEN THE TRUCKERS SAID THEY ALSO WANTED: 1) A MINIMUM RATE; AND 2) A ROLLBACK ON FUEL PRICES TO JANUARY 1979.

### WORLD WEATHER AND CROP UPDATE June 18 - 24, 1979

THE EASTERN HALF OF THE WINTER GRAINS AREA CONTINUES TO EXPERIENCE DRY WEATHER. TEMPERATURES RAN NEAR NORMAL, BUT HUMIDITIES WERE QUITE LOW, AND ONLY SCATTERED, LIGHT RAINFALL WAS REPORTED. HARVEST REPORTS FROM KRASNODAR HAVE NOT INDICATED ANY EXTREME SHORTFALLS IN YIELDS, BUT CONDITIONS MAY HAVE BEEN MORE SEVERE TO THE NORTHEAST, WHERE SPRING GRAINS IN THE VOLGA VALLEY MAY NEVER REALLY HAVE GOTTEN A GOOD START. ON THE OTHER HAND, NORMAL TO MUCH-ABOVE-NORMAL RAINS FELL IN THE NEW LANDS AND WESTERN UKRAINE MAINTAINING GOOD GROWING CONDITIONS IN THOSE AREAS. IN FACT, DRIER WEATHER WILL BE NEEDED IN SOUTHWESTERN GRAIN AREAS AS HARVEST TIME NEARS.

CHINA.

AS THE WINTER WHEAT HARVEST FINISHED UP IN NORTH CHINA PLAIN,

ABUNDANT RAINFALL SWEPT THE COUNTRY. TOTALS IN THE YANGTZE VALLEY

OFTEN RANGED ABOVE 100 MM, AND THERE SHOULD BE NO SHORTAGE OF WATER IN THE SOUTHEASTERN HALF OF THE

COUNTRY. DRIER WEATHER WILL BE NEEDED IN THE EXTREME SOUTH AS EARLY VARIETIES OF RICE NEAR MATURITY.

SPRING WHEAT AREAS OF THE NORTH RECEIVED MUCH-ABOVE-NORMAL RAINS OF MORE THAN 35 MM MAINTAINING GOOD

GROWING CONDITIONS.

AUSTRALIA.

WINTER GRAINS IN NEW SOUTH WALES AND QUEENSLAND HAD BEEN GETTING A

LITTLE DRY DURING THE LAST SEVERAL WEEKS BUT ABOVE-NORMAL RAINS OF

ABOUT 40 MM HAVE AMELIORATED CONDITIONS. OTHER AREAS IN VICTORIA AND SOUTH AUSTRALIA HAD BEEN NEARER

TO NORMAL, AND NOW THE CROP APPEARS TO BE IN GOOD CONDITION AS IT GOES INTO DORMANCY.

INDIA-SOUTHEAST ASIA.

Monsoon rainfall strengthened in some parts of India and weakened in others. Much-above-normal totals fell in a band across the center of the country and along the Southwestern Coast, probagly causing some localized flooding. Portions of North Central India and the Southern Peninsula received only light rainfall, but agricultural impacts depend mainly on the extent of rice transplanting in response to earlier rains. Bangladesh rainfall remained near normal, and in Southeast Asia, only a limited area in Thailand missed widespread, abundant rains. The new rice crop of the region should be in good condition.

CENTRAL AFRICA.

THE RAINFALL BAND ACROSS CENTRAL AFRICA REMAINED NEAR NORMAL, THOUGH
NO REPORTS WERE RECEIVED FROM CHAD, UGANDA, AND MUCH OF ZAIRE.

LIGHTER TOTALS WERE COMMON ALONG THE GOLD COAST, BUT PREVIOUS WEEKS' RAINFALL HAD BEEN QUITE ADEQUATE.

EUROPE. Much-above—normal rainfall (50-100 mm) doused large sections of Central and Southeastern Europe in a second week of good rains. Spring-sown crops there were reportedly much improved, but winter grain prospects had already been reduced somewhat by the earlier dry weather. Some dry pockets may still remain, and Eastern Poland is becoming drier. Rainfall over most of Northwestern Europe has been near normal in recent weeks, and the outlook for winter grain crops is generally optimistic, though down from last year's record levels.

SOUTH AMERICA.

BRAZILIAN COFFEE AREAS REMAINED FROST-FREE DURING THE WEEK, BUT

CONDITIONS WERE TURNING COLDER ON THE 25TH. IN ARGENTINA, WINTER

GRAINS AREAS IN BUENOS AIRES REMAINED RELATIVELY DRY FOR THE THIRD CONSECUTIVE WEEK DELAYING PLANTING

OPERATIONS THERE. SOME AREAS TO THE NORTH, WHICH ARE DOUBLE-CROPPED WITH SOYBEANS, RECEIVED ABOVE
NORMAL RAINFALL OF 10 TO 20 MM, BUT MORE IS NEEDED SOON.

CANADA.

MOISTURE SHORTAGES HAVE BEEN REPORTED FROM GRAINS AREAS IN THE PRAIRIE PROVINCES. RAINS DURING THE PAST WEEK HAVE ALLEVIATED CONDITIONS IN MANY LOCATIONS, BUT SOME EXTENSIVE DRY AREAS PERSISTED CLOSER TO THE U.D. BORDER.
